An Important Decision.

THE INDIAN COMMISSIONERSHIP.

WASHINGTON, July 22, 1871.

IMPORTANT DECISION.

The following important decision of the Treasury Department was made public to-day.

DEPARTMENT OF JUSTICE,
OFFICE OF THE SOLICITOR
OF THE TREASURY
Washington, D. C., July 21, 1871.

SIR: I have the honor to acknowledge the receipt of your letter of the 3d inst., transmitting one from the joint Railway Companies of New Jersey, and one from the Commissioner of Internal Revenue relative to the claims for taxes under the act of July 14, 1870 made on said Company by the Internal Revenue officer. It appears that on the 27th of February, 1871, the Commissioner of Internal Revenue decided in respect to the liabilities of corporations on the interest on coupons under sections 120 and 122 of the act of July 30, 1864, as amended by the act of July 14, 1870, that no tax should be withheld from interest or coupons representing interest falling due and payable within the five months from August 1st 1870, to December 31st, 1870, and that interest falling due on or subsequent to January 1st, 1871, is taxable at the rate of 2½ per cent. If such interest occurred either prior to August 1st or subsequent to December 31st, 1870, from so much of it as accrued within the last five months of 1870 no tax whatever is to be withheld. Acting in accordance with this decision the joint companies of New Jersey on the first of May 1871 having coupon interest falling due, deducted from the holders of coupons one and two thirds per cent tax, only being the proportion of two and one half per cent accruing in 1871. On May 11th 1871 the Attorney General to whom this question had been referred by the Secretary of the Treasury decided that the tax on interest on coupons, imposed by the fifteenth section of the act of July 14th 1870 is applicable to interest paid subsequently to August 1. 1870, and prior to January 1, 1871. The Commissioner of Internal Revenue, on the 14th of May, 1871, in accordance with instructions from the Secretary of the Treasury, revoked his former decision and made one in conformity with the opinion of the Attorney General, when the companies who by the 15th section above referred to, authorized to deduct the tax in question, made a return of the amounts retained for the Government to the Collectors of the District They were informed of the revocation of the decision of February 27, and a demand was made for a return of two and a half per cent, upon application to the Commissioner on the 26th of May ult., requesting that as they complied with the instructions of the department in making a return of two and one-half per cent they be permitted to make such return to the Assessor. They were informed that he could not accede to the request unless authorized to do so by the Secretary of the Treasury. Upon this state of facts my opinion is asked. Whether the companies can be legally or equitably held to account for the deficiency that has occurred in consequence of the action of the proper officer of the Government. Such being a brief history of the question involved in the case, I have to say that the Commissioner of Internal Revenue is the recognized authority under the law and in practice, through whom decisions upon questions arising under the internal revenue laws are promulgated to the public. His decision of the 27th of February was one, therefore, upon which the applicants in this case had a right to act. The joint railroad companies of New Jersey did act upon it so far as to adjust interest due upon their coupons and pay the same to holders thereof. The companies can only be regarded under the law as agents of the government in reserving the tax of their bondholders and paying the same into the treasury. They acted in this case under the direction of the principal officer in the first instance and by reason of that proper action have become involved in the present controversy. It is perhaps fair to assume that owing to the change of ownership which is constantly occurring in this form of property, the companies would be unable to enforce the collection of the balance of the tax now held to be due from those to whom the interest was paid and from whom in fact the tax is due, and it could not be legally enforced to the injury of any persons from whom the tax was not due. I deem it unfortunate for the Government that the question has assumed an attitude, where the alternative seems to be to compel the department to forego the collection of the proper tax in the simple manner pointed out in the statute, or expose it to the charge of working a greater or less degree of injustice upon the companies or their bondholders. Under all the circumstances, I am of opinion that, legally and equitably, the department is under the necessity of yielding to the present request and of desisting from enforcing the tax in question from the companies who prefer the application. Enclosures returned.

I am, very respectfully,
E. C. BARFIELD,
Solicitor of the Treasury.

To Hon. Geo. S. Boutwell, Secretary of the Treasury.

EXPLOSION AT THE ARSENAL.

At three o'clock this morning an explosion occurred in a small magazine at the Washington arsenal, which is used for the preparation of rockets, lights and shells for the Signal Corps. The explosion was distinctly heard in the northern part of the city, and it was almost immediately followed by an alarm, for it caused a serious conflagration, involving the destruction of at least $1,000,000 worth of Government property. The flames communicated to a frame building near by, and were carried thence to what is known as storehouse No. 2, in which were stores of all kinds, cavalry and artillery equipments, which are a total loss In this building, too, was a model room or museum, in which were stored all kinds of models of foreign arms and equipments, and it is a serious loss to the Government from the mere intrinsic value of the articles destroyed. There is not much powder kept stored in the magazine where the explosion occurred, as the arsenal makes no pyrotechnics or explosive articles, except for the signal Corps upon a special order. The Sergeant was at work in the magazine last night, and when he left work all things seemed to be in good order, and it is supposed the explosion was the result of spontaneous combustion. The fire was also communicated to another adjacent building, in which were stored saddle trees and other equipments. A quantity of iron in this building can be made available in the future. The buildings to which the flames communicated are totally destroyed, and several small houses near the large buildings were injured by the flames.

There were four barrels of powder in the magazine which exploded this morning. The trees near by were stripped of their bark, branches broken and their life perhaps destroyed. Fuses, cartridges, &c., in profusion were scattered over the ground. One of the guards living about a quarter of a mile from the scene of the explosion states that the concussion was so severe as to throw him from his bed and break open the doors of his dwelling. In the upper portion of storehouse No. 2 was located a very valuable museum, in which were many relics of military art of modern and ancient times, including ancient weapons of warfare, armor of the middle ages, shot and shell and colors from our Revolutionary war, specimens of arms and uniforms of almost every nation, past and present, forming a collection which can never be replaced. Of the curiosities stored there, but few can be found. There were also models of guns, shot and shell, and in fact nearly all weapons used in war in our own times. There were in the store houses large quantities of fuses, &c., manufactured at Richmond for the Confederate States. The grounds are couered with them, together with fuses, cartridges, &c., of United States manufacture. The loss will not fall far below a half a million dollars.

THE INDIANS.

A letter from Ft. Sill, of the eighth, says the Kiowas Indians have made efforts to induce the Cheyennes and Sioux, to join them in a war against the whites, but thus far have failed. They are at present among the Antelope hills on the Canadian river.

A letter has been received from the agent of Little Raven and other chiefs of the Indian delegation recently visiting the east dated Cheyenne and Arappahoe agency July 6. He states they arrived home on the 25th of June all well and found everything quiet. The Indians were much pleased with the account the delegation gave of their treatment while in Washington and other cities which they visited. Two days after their return, John Smith, Cheyenne interpreter was stricken with apoplexy and being unable to procure a physician for him, he died. They found all the Arrapahoes there on their arrival, but most of them have since gone on a buffalo hunt. Big Mouth with about forty lodges will remain. They have corn planted, which promises a good yield. The agent started a school last winter, which has been well conducted and eagerly attended during spring and summer by the Arrapahoes and Cheyenne children of both sexes, some of the larger Indians taking much interest in the proceedings. Lone Wolf, Stumbling Bear and another Kiowa chief say a larger part of the Kiowas are encamped near Antelope Hills and mean to be friendly, but the remainder of them, numbering perhaps one hundred lodges, have gone to the Staked Plains and joined the Commanches. There they are supplied with all they need by Mexican traders, getting arms, ammunition, whisky, &c. These Mexicans encourage and accompany the Indians on their raids on Texas and at the time Satanta made his last raid a party of Mexicans accompanied him of whom one was killed by the Tonkowas. Scouts in the employ of the military in Texas say the crops are looking well on the Wachita and most of the Indians hard at work attending to them.

Some little fear is felt there about the Kiowas, the Indians thinking they might come in and steal their horses. About five hundred Commanches are encamped on the Wachita. They are determined to remain at peace. The Rapparickas are encamped near Fort Cobb and say they wish to remain at peace with the whites.

INDIAN COMMISSIONERSHIP.

The name of Colonel Wm. A. Phillips, of Kansas, has been mentioned in connection with the office of Commissioner of Indian Affairs with such attendant facts as would seem to indicate that he would be appointed. He has been recommended by the Board of Civil Commission, and his familiarity with the Indian questions strengthens the belief among his friends that the appointment will be tendered him. The President has been recently informing himself in regard to Col. Phillips' record and fitness.

NAVAL EXPENSES.

The amount appropriated by Congress for the naval service for the fiscal year ending June 30, was $19,000,000. At the close of the year $2,800,000 of the above sum remained in the treasury. The unexpended amount thus showing the actual coost of the navy for the years 1870 and '71 to have been about $16,200,000. This exhibits a great reduction in the expenditures over former years since the war.

GOVERNOR COOK.

Governor Cook and family leave here this evening to attend the funeral of Mrs. Jay Cooke, who died last night near Philadelphia.

THE NEW LOAN.

The exchange of five-twenties for bonds of the new funded loan has very nearly ceased.

WASHINGTON, July 23, 1871.

KU KLUX.

The Republican members of the Congressional Ku Klux Investigating Committee deny that the Sergeant-at-Arms of the Senate has countermanded subpoenas issued to certain witnesses at the request of the Democratic members of the committee, and notified them that they need not appear. One Democratic witness, Mr. Hardeman, of Georgia, has been excused in consequence of want of time for his examination before the date appointed for recess, July 18th, but this was the only case of the kind. It is further stated the leader of the Ku Klux in Orange county, North Carolina, F. M. Strudwick and the impeacher of Governor Holden was asked three several times for delay. Finally he came to Washington and reported to the Sergeant at arms. The day previous to the time for his examination he left the city without leave or notice. He was again summoned but asked for further time saying he was sick. He has not appeared before the Committee. W. L. Saunders the reputed State Chief of Ku Klux in North Carolina was also summoned and asked for further time. Plato Durham, the alleged Grand Chief of the Ku Klux in Cleveland county, North Carolina, declined to come until after the third of August. H. W. Guyon, supposed to be connected with the Ku Klux in Mecklinburg county, has asked to be excused on account of court business Mr. Avery, of South Carolina, reported and then left Washington. General A. R. Wright, of Georgia, was summoned on the first of July, but has not yet obeyed. Other witnesses, however, have promptly obeyed, among them Colonel Christy, of Athens, Georgia, who is now here.

Accounts from Raleigh, North Carolina, say there are already one hundred indictments against members of the Ku Klux in that State, and the number will be probably increased to ten hundred by the time specified for the term of the Circuit Court, to be presided over by Judge Bond.

THE WEATHER.

The area of low Barometer continues over Florida. Cloudy weather and south west winds at Key West. The area of high barometer which on Saturday afternoon was west of Michigan, is now in central Pennsylvania. Easterly winds are now generally reported from Louisiana to Lake Superior and the barometer is falling from Kansas northwards. The clouds and rain have very generally cleared off in New England and the rains have very generally cleared away north east, but rain has fallen from Nebraska westward, and the cloudy weather is increasing west of Mississippi.

Probabilities.—It is probable rain will extend on Monday to Kansas, Lake Michigan and northward with easterly winds on the upper Lakes. Pleasant weather will probably continue in the middle and eastern States and the interior of the southern Atlantic States.

MILWAUKEE.

Boat Match.

MILWAUKEE, July 22.—The two rival boat clubs of the Saginaws, Wahwahsums and Neptunes, who swept the course at the late regatta, are reported as having arranged for a match between themselves over the same course at Oconomowoc for a stake of three thousand dollars. Time not yet settled.

MEMPHIS.

Death from Sunstroke.

MEMPHIS, June 22.—James Rose, Esq., a magistrate and highly respected citizen of this place, died last evening from the effects of sunstroke.

LOUISVILLE.

Murder Trial.

LOUISVILLE, July 22.—The examinating trial of Gabe Randolph and B. C. Myers, for the murder of Amos Ivey, at Old Deposit Station, L. & N. R. R., three weeks ago, was had before Judge Price to-day. Myers was discharged and Randolph committed without bail to answer a charge of murder at the next term of the Criminal Court. The difficulty occurred about a woman who lived with Ivey, but left him to live with Randolph. Ivey went to Randolph to see him when the shooting occurred. Ivey's dying declaration, which was before the Court, represents the murder as brutal and unprovoked.

ANOTHER INTERVIEW.

G. W. Lyle superintendent of the Estil Iron works at the time the alleged Ku Klux outrages were committed was interviewed by the *Courier Journal* reporter to-day. He said the reported organization undoubtedly existed. Outrages were committed but the affair was entirely local without any political bias whatever. It was entirely a question of labor. The Iron Company had reduced the wages of miners from one dollar fifty cents to one dollar twenty-five cents per day and the miners struck, when the Company procured negro laborers to take their place. The miners then banded themselves together in their own interests and trouble commenced. The bands were composed of men of both parties and soldiers of both armies and the difficulties were purely labor riots.

THE JEFF DAVIS STORY.

The Louisville *Commercial*, which originally published the scandalous story about Jeff Davis, will to-morrow publish the following on his denial: "As Mr. Davis passed through Knoxville on the 19th inst., on his way to Memphis, he has taken the earliest opportunity to make the denial which he found upon his arrival there, was deemed necessary. As he has met the question like the gallant gentleman which we have never doubted him to be, and has given the story, as promptly as he could, a denial in the most emphatic and judicious langeage, we hope the scandal will be consigned henceforth to that limbo reserved for such stories upon men who are called on to bear the burden of unenviable conspicuousness. No feeling which we have toward Mr. Jefferson Davis is tinged with any shadow of malice and it was no disposition to do him injustice which led us to publish an item of unpleasant news, which to us was apparently well authenticated. If the story is founded on malice, as he asserts, we have no part either in the fabrication or the spirit which prompted it.

RAILROAD ACCIDENTS.

Yesterday the north bound freight train on the L. & N. Railroad ran off the track near Glasgow Junction. The accident was caused by a broken rail. Eight cars ran down a twenty foot embankment and were wrecked. John Moonon, a brakeman, was crushed to death. He was from Sandusky, Ohio.

This morning, near Cave City, a freight train on the same road became uncoupled and the following train ran into its rear, throwing the cars off the track and injuring several cars and the engine of the first train.

KU KLUX.

David Albey and Granville Cuddy, two more of the Ku Klux of Estelle county, were before United States Commissioner Beatty to-day, charged with shooting with intent to kill Darius Falkner, colored. They were held in five hundred dollars bail to answer before the October term of the Criminal Court. Albey is an active member of the Republican party.

SOMNAMBULISM

Last night Isaac B. Myers, while walking in his sleep, stepped out of a third-story window of the Globe Hotel, Broadway between Eighth and Ninth streets, and fell on a cellar door beneath, crushing his left arm into a number of pieces and sustaining severe internal injuries. The man will probably die.

REBUILT.

A dispatch received here from H. W. Scott, general passenger agent of the New Orleans, Jackson and Great Northern Railroad says the bridge at Manchace, Alabama, has been reconstructed, the road repaired and trains will run through to the depot in New Orleans on Monday 24th instant.

DIFFICULTY AT A BALL.

Thursday evening at a ball at Sulphur Springs, near Leavenworth, Indiana, a man, name unknown, raised a difficulty about the price of admission, when the doorkeeper shot him, killing him instantly, and immediately made his escape to the Kentucky side.

APOPLEXY.

Ben. Lemmon, a member of Hook and Ladder Company, New Albany, was taken with a fit of apoplexy while riding to a fire on his apparatus this afternoon and died in a few moments.

HARRISBURG.

Recovery of Stolen Bonds.

HARRISBURG, July 22.—One hundred and fifty thousand dollars in bonds were stolen from a man in the sleeping coach at the depot in this city, which has all been recovered. The satchel containing the bonds was taken from a boy in the street, but the boy escaped. The man from whom the bonds were stolen belonged to the firm of George Opdyke & Co., New York.

BUFFALO.

The Exhibition.

BUFFALO, July 23.—The Lake Shore and Michigan Southern Railroad Company has issued instructions to their agents that all goods intended for exhibition at the Buffalo Internal Industrial Exhibition which shall be prepaid to Buffalo, will be returned at the close of the exhibition over that railroad free of all charges.

A Paris Horror.

[Paris Correspondence of the London Globe.]

I heard, yesterday, this incident related, and am quite satisfied that it is true: A few days after the overthrow of the Commune, a member of the National Assembly had the curiosity to go to see some of the female captives of Paris confined at Versailles. Shortly after entering a yard in which two or three hundred of them were assembled, one of them, in dirty garments, caught him by the arm and cried, "You shall not leave me, M——." He tried to shake her off, but she clung tighter, and said, "Do not leave, for God's sake! Look at me!" He looked at her, and exclaimed in astonishment, "Gracious heavens! Madame ——, You here! He recognized in her a friend, a lady of wealth in Paris. She burst into tears and told her tale. On Thursday, the 25th of May, fighting having ceased in her *quartier*, she went out and called at the shop of a dyer, to inquire about some things she had given to be dyed. On leaving she found herself among several women, who were flying before a band of soldiers crying, "Stop them, they are *petroleuses*." The women were surrounded, and she with them, and she in spite of her earnest remonstrances was with them and many others sent to Versailles. They were made to go on foot, and what she suffered from fatigue and thirst, and agony of mind, no one, she says, can imagine. At Versailles all her efforts to communicate with her friends and family were in vain, for no one would believe that she was a lady and not an incendiary. The M. P., of course, hastened to get her released. But for him she might have been sent with her fellow prisoners to a penitentiary colony, or, like some of them, shot Her family in Paris were surprised at her absence, but never supposing that she could be among the *petroleuses* of Versailles, and so made no inquiries there. The lady is convinced that many of her fellow prisoners were as innocent as she, but says they were treated with as much cruelty as those whose guilt was undoubted.—*Paris Cor. London Globe.*

DR. ANTHONY MINTER, who died in Sheibina, Mo., on the 2d inst., left a will bequeathing $18,000 to his wife and children, and providing for the distribution of the rest of his estate. As his assets were not known to exceed about $14,000, some curiosity was felt to know how the provisions of the will were to be carried out. The executor, on examining Dr. Minter's papers, found a memorandum telling where in the garden a number of pots would be found, containing money. On digging at the places indicated, $9,000 in gold coin was found. It had been buried there during the rebellion.

M. THIERS' SPEECH.

PARIS, July 23.—In the course of M. Thiers' address before the National Assembly at Versailles yesterday, the President, speaking of Italy, said it was impossible to adopt a course which would lead to war. The true policy of France was peace and reorganization. No steps must or should be taken which will even tend to alienate Italy.

EXCITED DEBATE.

In the Assembly to day there was a very excited debate upon the subject of a petition of the Bishops in reference to the temporal power of the Pope. Thiers, who was the chief speaker, said that while he would not in any way compromise the policy of the country, he would do his best to restore the Pope's independence. Gambetta followed, in a speech approving the sentiments of Thiers, and supported the motion for the order of the day, which was rejected by the Assembly. The petition was then referred to the Minister of Foreign Affairs.

Two new National Banks have been organized in this city and will soon go into operation. Their names are the National Bank of Illinois, and Cook County National Bank. This will make nineteen banks in Chicago.

FIRE INSURANCE COMPANY BANKRUPT.

CHICAGO, July 23.—The explosion of the Lamar Fire Insurance Company of this city is announced. For some months there has been much talk of the bad management of the institution. Charges of fraud, corruption and perjury have been made by the stockholders against the management of the company. Yesterday, on application of the stockholders, the State Auditor appointed General Geo. W. Smith, as attorney for the State, to apply to the Circuit Court of Cook county for the appointment of a receiver, in whose hands the affairs of the company will be placed, the business closed and the charges investigated.

SEIGENMEYER.

A letter was received yesterday in this city from D. C. Sprague, United States Consul at Brunswick, Germany, which says of Seigenmeyer, the murderer of Gumbleton, that he had endeavored to dispose of a starch factory which was purchased by the money got from Gumbleton. Application was made by the Consul to the Civil Tribunal and an injunction issued restraining him from selling until he should give security for the money. The agents of the banks interested in the money have arrived in Brunswick and will take legal measures to receive the amount.

SHOT BY A WOMAN.

At Jackson, Illinois, last night at 12 o'clock, two Irishmen named Withman and O'Brien, went to a house of ill fame kept by Mrs. Potter, and commenced throwing bricks at her windows. Mrs. Potter arose from her bed and discharged a Derringer pistol through the window. The ball entered Withman's side, inflicting a wound which will prove fatal. Mrs. Potter was arrested and admitted to bail in $1000.

TEXAS CATTLE.

Enterprises are on foot in this city of an extensive character by capitalists with reference to securing the immense cattle trade of Texas. It is the intention of the movers in this enterprise that Chicago shall remain as it has been for many years, the great cattle market of the West.

NEW ROUTE.

The Michigan Central Rail Road announce that on and after Monday, the Atlantic Express train leaving this city at 5:15 P. M., will go *via* the new Air Line route from Niles to Jackson. This reduces the running distance about seventeen miles.

DEMOCRATIC RATIFICATION.

The Democrats are holding an immense ratification meeting this evening.

PHILADELPHIA.

Property Sold.

PHILADELPHIA, July 22.—Sales of the Pennsylvania property of the Atlantic and Great Western Railroad took place at noon. The attendance was slim, the persons present being principally lawyers. General George B. McClellan and Senator Thurman of Ohio, attended to represent the Trustees of the Road; Reuben Hitchcock, receiver, and a gentleman named Sedgewick, representing the English interests. The sale was made in three parts—first, that portion extending between Salamanca in New York and Dayton, Ohio, terms of sale $50,000 in cash down. But one bid was made, and that by Senator Thurman to whom the sale was made at $500,000. Second—The Franklin and Meadville branch. This line extends from a junction with the main line at lower Meadville, Pennsylvania, to its junction at Franklin. Senator Thurman being the bidder, it was knocked down at $100,000, $10,000 cash. Third—The Oil City branch. This road extends from Franklin to Oil City. Senator Thurman was the only bidder; price $20,000, cash $10,000. The articles of sale will be signed by General McClellan and Senator Thurman on behalf of the trustees.

The Polaris—For Europe—A Professor Dead—The Car Horses—Riot Inquest—Governor Randolph Interviewed—Special Service—A Relict—New Steamer—Relief for a Widow—Dividends—Cuban Successes—Vessel Burned—Steamers Arrived.

NEW YORK, July 22 1871.

GOVERNOR RANDOLPH.

Governor Randolph, of New Jersey, in an interview said: At noon on the 11th he first read Kelso's order. He thought the effect of that order would be to throw a riotous element into New Jersey, and he immediately commenced writing his proclamation, which was finished by one o'clock. He further stated that as fast as one sheet of the proclamation was written it was copied by my Assistant Secretary, so that when I had finished, the two copies were within a few minutes of simultaneous completion. One copy was sent to the Secretary, and one to the Western Union Telegraph office, to transmit the proclamation to the papers in New York and Jersey City, and I took my own copy to the Atlantic Telegraph office, to send it to the New York papers. My copy being written in an abbreviated form, no one but my Secretary or myself could read it handily, so I had to dictate it to the telegraph operator. There was a storm on Tuesday which delayed the sending of the proclamation over the wires until half-past two o'clock and I took constructive possession of both offices at Trenton, and claimed that no message should be transmitted till the proclamation had been sent, and the operators good-naturedly yielded to my wishes. The proclamation got over the wires at five minutes past three, and immediately afterward military orders were sent to General Runyan, to the Quartermaster General, to the Adjutant General and to staff officers, so that by half-past three all the necessary military orders had been given. Upon reaching Jersey City on Wednesday morning I was met by Mayor O'Neill, who, though an Irishman and a Catholic, promptly seconded my action."

NEW STEAMER.

The steamer Humboldt, of the Baltic line, left this port to-day direct to Stettin, carrying the United States mail. The Humboldt arrived this week, and is the second of the new line of steamers between New York and Stettin direct.

SPECIAL SERVICE.

The Synagogue of the Mount Sinai Hospital Institution, with which Mr. Nathan was identified, and to which he devoted all his energies in the capacity of Priest, to-day honors his memory by special services.

THE POLARIS.

Richard Tyson will probably supersede Capt. Buddington as sailing master of the Arctic steamer Polaris. Buddington is dissatisfied with the expedition, and will be relieved at Diesco.

CAR HORSES.

Henry Bergh visited the stables of the city railroad lines yesterday and expressed his opinion that the horses are overworked, under-fed, and in many cases badly stabled.

COLLISION.

The Morris and Essex railroad sustained a loss of forty thousand dollars by a collision with a coal and freight train near Morristown, New Jersey, last night.

STARTED.

The steam propeller Cathcart, which is to compete for a hundred thousand dollar prize for the best canal steamer, started for Buffalo last evening.

THE RIOT INQUEST.

Coronor Young will next Monday begin an investigation of the circumstances under which the victims of the riot met their deaths.

DIED.

Prof. John W. S. Howe died in this city yesterday of Pleuro pneumonia

ARRIVED OUT.

The steamship Wyoming, from this port for Liverpool, has arrived out.

SAILS FOR EUROPE.

Sir Edward Thornton, British Minister, sails for Europe to-day.

NEW YORK, July 23, 1871.

CUBAN SUCCESS.

Private letters from Cuba *via* Jamaica to the 5th instant mention several important engagements, in which the Cubans were successful. One of them lasted five hours and resulted in the capture of 600 Spanish prisoners. In another forty five Spaniards were killed and one hundred and fifty prisoners taken. The Cubans control the department of Guanhanam. A Caracas letter of July 8th says the revolutionists under Herrera have defeated Guzman Blanco's forces at every point, and he cannot hold out much longer. The sailing of Quesada's expedition for Cuba would, it was feared, cause a war with Spain, as it is in contravention of the treaty between the two countries. Spanish war vessels are expected to blockade the ports.

RELIEF FOR A WIDOW.

The contributors for the relief of the widow of Sergeant Wyatt of the Ninth regiment, killed during the riot on the 12th instant, exceeds $700 and is rapidly increasing.

VESSEL BURNED.

The French schooner Jenny, for Hull, with petroleum oil, lying off Jersey Flats, ready for sea, caught fire this evening from the explosion of the cargo in the hold and burned to the water's edge. The crew were picked up by revenue cutters.

A RELICT.

Mrs. Alexander Hamilton, a niece of President Monroe, died on Friday evening at her residence in New Brunswick, New Jersey. Her husband who survives is the son of General Alexander Hamilton.

DIVIDENDS.

The united railroads of New Jersey whose lease to the Pennsylvania Central is still pending, have declared a three per cent. semi-annual dividend.

STEAMERS ARRIVED.

Arrived, the steamers Westphalia from Hamburg, and St. Olaf from Borgen, Norway, *Via* Antwerp.

U. S. STEAMER ARRIVED.

The United States steamship Guard arrived to-day from Aspinwall.

ABATING.

The horse plague in this city is rapidly abating.

WORCESTER.

Fires.

WORCESTER, Mass., July 23.—A fire in Northboro on Friday evening consumed a large barn belonging to Dr. Henry Barrett, together with the contents, which included six head of cattle. Loss $6,000.

Last evening another fire broke out at 8 o'clock P. M., and burned till nearly 11 o'clock with such fury as to excite fears that the whole village would be destroyed but it was at last subdued by the assistance of the firemen from the neighboring town. Two large blocks, in which were three stores, the post office, provision market and the residence of three families were consumed, also two dwelling houses and barns. Six families were burned out and most of their furniture destroyed. Loss nearly 10,000 dollars, a small portion only covered by insurance.

NEW ORLEANS.

Repaired.

NEW ORLEANS, July 23.—The first through train over the Jackson Railroad after an interruption of three months will be started from the depot at the foot of Callicope street to-morrow morning. The damage to the road by the Bonnet Carre Crevasse extended over a distance of thirteen miles. This portion of the road is now said to be in better condition than previous to the flood.

HEALTH AND WEATHER.

The weather is warm, but the health of the city remains good. Not a single case of yellow fever has been heard of in this vicinity.

NASHVILLE.

Up in a Balloon.

NASHVILLE, July 23.—Professor Webster made an ascension from the Horticultural Garden with his balloon Hercules, at six P. M to-day. After ascending to an altitude of three thousand feet the balloon descended rapidly and struck upon the top of a smoke stack of the Nashville cotton factory. Here the balloon collapsed and fell to the ground, leaving Webster with his wicker work basket on the stack. After surveying his position, he cast the basket away and finally descended through the interior of the stack, coming out safely but black with soot.

CINCINNATI.

Destructive Fire.

CINCINNATI, July 22.—A fire originated in the cellar of Curing & Co.'s commission house, on Front street, this morning, which finally spread to the remainder of the building, damaging the structure to the amount of about $4,000. The principal loss is in the cellar, where three hundred barrels of red oil, worth ten thousand dollars, was stored. The building was covered by insurance in the Equitable Company. The oil was amply insured. The total loss is about fifteen thousand dollars.

SUNDAY LAW.

The meetings held by various leading German Societies for several weeks with reference to the repeal of the Sunday laws culminated this evening by the adoption of resolutions declaring that the question whether citizens shall observe a day of rest or what day or whether to perform no labor on any one day, was not a public question to be regulated by law but one strictly private to be left to one's own conscience or views of propriety and interest. Shall the law not be uniformly and emphatically enforced, and to discriminate was a violation of republican equality. That the law requiring men to refrain from labor and making a violation a penal offence, when the same did not interfere with the public peace, or rights and liberties of any body must be an encroachment on individual rights, incompatable with the spirit of the State Constitution, and the American idea of personal liberty. For these reasons they as a Common Council repeal the laws known as the Sunday laws and declare their intention to endeavor to secure the repeal of the Sunday and temperance laws of the State by attempting to select as candidates to the Legislature only such as coincide with them in their opinions. Committees were appointed in each ward to agitate the repeal of the City ordinance and to circulate a petition to that effect.

SENATOR MORTON.

Senator Morton, stopping here a few hours, accepted an invitation to go on 'Change to-day, but protested against making a speech, but in response to earnest solicitation, consented to be conducted to the stand, and spoke a few minutes, expressing the opinion that never in the history of the country had we such favorable prospects as now. The late treaty he believed the greatest tribute ever paid to the character and power of our nation. This treaty gave us assurance of peace for years to come and inaugurated a new era among the nations in the settlement of differences without war. He encouraged the merchants by presenting a bright business future, assuring them he had never in the course of his life seen more confidence than was now felt. He was heartily applauded when he concluded.

QUICK WORK.

The rivalry between the John street Railway line and Route Number 9, with reference to the Western extension resulted last night in the former putting on three hundred workmen, and under cover of darkness, building the road from the Brighton House to Ernst Station, a distance of half a mile. The cars will be running to-night.

RAILROAD TROUBLES ENDED.

It is reported, to-day, and believed in Railroad circles that the troubles between the Pennsylvania Central and Mississippi Railway, with reference to the joint use of the Louisville bridge have been settled in such a way as to secure to the latter road the desired privileges which of late have seemed jeopardised.

BASE BALL.

The Athletics of Philadelphia defeated the Forest City of Cleveland, to-day, at the Union grounds. Score eighteen to ten. About fifteen hundred persons were present.

PROBABLE MURDER.

The body of an unknown man, with a bullet hole in his head was found on Wednesday, in the Licking, five miles from the mouth, supposed to have been murdered.

CHANGING GAUGE.

CINCINNATI, July 23.—The work of changing the gauge from six to four feet nine inches on the Ohio and Mississippi Railroad commenced at daylight this morning and was completed throughout the entire line, a distance of three hundred and forty miles, at eleven o'clock this morning. Average time for completing sections seven hours. The section at Adamson Station was finished at 4:75 o'clock and many others at an early hour, under the direction of J. L. Griswold, General Superintendent. The entire road was cleared of rolling stock at midnight last night, and the same placed at the previously designated stations. The changes in the track by which the gauge was reduced, consisted of moving each rail inwardly seven and a half inches. Interior spikes had been driven, ties champered and the rails on the curves laid. Alternate spikes had also been raised. The work for to-day consisted in raising the rest of the spikes, and moving up the rails which being furnished with the Fisk joint were continuous. To accomplish this a gang of seven men were placed in charge of each mile making about twenty-five hundred workmen, part of whom were borrowed from other roads, this change ranking among the great Railroad feats of the country. So far as the brace, and superstructions are concerned they have been under the supervision of Thomas D. Lovett, Chief engineer. The narrow gauge passenger cars will commence running to-morrow morning.

SHOT AND KILLED.

A special to the *Commercial* and *Gazette* says a young Irishman named James Mealey was shot and killed this afternoon near North Lemisbery, Champaign county, by John Murphy. An old trouble was at the foundation. Mealey and a man named Akeehan came upon him at the graveyard where he had been visiting his father's grave. Murphy appears to have been acting in self-defense and gave himself up to the Mayor after the occurrence.

RAILROAD CONTRACT.

Contracts between the Marietta & Cincinnati, the Cincinnati & Baltimore, and the Cincinnati & Springfield Railroads for the joint use of the track through Mill Creek Valley, was ratified yesterday by the two former.

DROWNED.

An aeronaut named Torres, connected with Grady's Circus, in descending with his balloon in Massillion, Ohio, yesterday, came down in the canal basin and was drowned.

KILLED.

Patrick Stapleton, Assistant Road Superintendant of the Pittsburgh, Cincinnati and St. Louis Railroad, was run over and killed, near Xenia, Indiana, yesterday.

IN DEFENSE.

A number of Ministers of the city, took the field to-day, in defense of the Sunday laws.

QUINCY.

A Pennsylvanian Drowned.

QUINCY, July 23.—A man named Harry Larkam, a native of Pennsylvania, employed on the J. W. and W. Railroad was drowned in the river while taking a sail this afternoon. Three other men in the same boat made a narrow escape. The body was recovered.

JAIL DELIVERY.

A jail delivery occurred at Chillicothe, Mo., on Friday night and seven prisoners escaped, two of whom were indicted for murder.

7-30 GOLD LOAN
OF THE
Northern Pacific Railroad.
RAPID PROGRESS OF THE WORK.
The building of the Northern Pacific Railroad (begun July last,) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track-laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 560.
A GOOD INVESTMENT.—Jay Cooke & Co. are now selling, and unhesitatingly recommend as a profitable and perfectly safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest, (more than 8 per cent. currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the road is completed, on 23,000 ACRES OF LAND to every mile of track, or 500 acres for each $1,000 bond. They are exempt from U. S. Tax; principal and interest are payable in gold; Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.
LANDS FOR BONDS.—Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.
SINKING FUND.—The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The land grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment accessible to the people which is more PROFITABLE OR SAFE.
EXCHANGING U. S. FIVE-TWENTIES.—The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.
OTHER SECURITIES.—All marketable Stocks and Bonds will be received at their highest current prices in exchange for Northern Pacific Seven Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned. For sale by

LOUISVILLE
CEMENT.
The Best--The Cheapest.
The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.
It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.
The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.
The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.
At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.
A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:
LAING & McKALLIP, 347 Liberty street.

IT IS a pity that the *Post* can see nothing that is good in Republican office holders. It scolds and frets continually over the administration of affairs in any office not controlled by a Democrat, but after all no one seems to care about its peevishness.

THE New York *Tribune* seems to have forgotten that Bret Harte's poem read at the Army of the Potomac reunion was telegraphed through the United States by the Associated Press, and that, we think, was the first instance of sending poetry by electricity.

PRESIDENT GRANT and his family are still at Long Branch, enjoying the wholesome sea-breeze, the same as any other citizen may do. His being President does not signify that he must make a hermit of himself, and shut himself up in the White House, at a season of the year when he is not needed there.

IT IS with scorn and withering contempt that the New York *World* now speaks of President Grant because he did not attend the last meeting of the Army of the James. The President had another engagement, at which the *World* laughs in derision; and then he attended a good many of the earlier of those meetings, of which the *World* takes no account.

THE New York *Times* appears to hold the whip handle in dealing with the Democratic Mayor and Controller of that city. It presents an astounding array of figures which bear indisputable evidence of fraud in the distribution of the public moneys. After such a startling *expose*, let no one question under which rule their interests are best guarded, and forever let Democratic journalists hold their tongues about Republican corruption.

TILTON, the virtuous and beautiful, is we fear not also the religious. Freedom from conscience we think is what he wants. That is, to be able to do all his wickednesses without any of the after thoughts which must be unpleasant even to the Tilton. In the last Golden Age—Brazen Youth would be a better name—this destroyer of morality, laughs at the Pope, ridicules the Methodists and recommends Mr. Barnum to secure Bishop Whitehouse as an ecclesiastical zealot and a laughing stock. There mustbe something very vile about the Rev. Mr. Cheney to have attracted this champion.

THE German element is the only one in the City of New York strong enough to contend with any hopes of success with the Irish American element. Hitherto the Teutons have seemed careless of their strength and votes, and have thus fallen with the rest of New York, under the heel of the great Hydra-headed master of the Irish vote. We are glad to know that now they are really begining to understand their duty, and to see that their apathy is really largely responsible for the lawlessness of the Metropolis. A large and influential German Society made the initatory step on Wednesday by condemning the granting of public monies to the sectarian schools and this we hope is but the begining of a demand for a complete reform.

THE question of Reconstruction is already offering difficulties to the German Government. Alsace and Lorraine had been too long a part of France to become a part of Germany without feeling it. The new Government of the conquered provinces is meeting with opposition, and serious trouble is feared. In the larger towns the children have formerly been employed in the factories, and the compulsory education system is violently opposed, because it interferes with this old state of affairs. The change in the judicial system has met with disfavor. And, in fact, these people seem to be suddenly awakening to the fact that they are no longer French, and in consequence oppose whatever is new and inevitable. The German authorities are naturally incensed at this behavior, and threats are made that the indemnification for war losses promised by the Government will be withheld if the Alsatians are not more reasonable.

WITCHCRAFT is getting to be most uncomfortably common. In Indiana there are two girls whose symptoms would have charmed Cotton Mather. In Sixth avenue New York there is a house from which the plaster drops in rhomboids, unearthly lights are seen and so are most unearthly women, noises are heard and cold chills assail the inhabitants. All of which is affirmed by the New York *World*, which can find no better explanation than that an epidemic is threatening the country, and this whole Sixth avenue family is already seized with this terrible nervous disorder called cerebro-spinal-meningitis. And the singular lights are merely that magnetic fluid denominated "od" by Reichenbach. Concord, N. H., has a haunted house, Wooster, Ohio, and Shelby, Indian, each have undoubted specimens, and girls all over the country are vomiting snakes and pins and things. Are the days of Salem coming again, or is this all cerebro-spinal meningitis?

AN article in the Cincinnati *Gazette* recalls to our mind the changes that have been wrought in the past decade. It is but ten years since we were suffering all the humiliation and agony which followed the battle of Bull Run, which was fought, it will be remembered, on the 21st day of July, 1861. The grand army whose advance guard had so recently crossed the lofty bridge freighted with our high hopes and proud confidence, had been routed and most of us thought that the Secessionists, as we called them then, would at once be recognized by the all-powerful Napoleon and the mighty England. And now, the dictator of Europe is an exile, France has just been lifted from the torturer's rack, and England is preparing to pay our Alabama claims. Ten years ago we lay, defiant but weak and trembling, at the feet of Europe. Ten years, mostly of Republican rule, and we are the peer of any nation on the globe. Is it worth while going back to our old Democratic masters?

OUR Wood street neighbor, in trying to get off something very sarcastic, and at the same time intended to be funny, calls upon the "Radical office holders," to refrain from mobbing President Grant, when he shall visit our city. No fear of that good neighbor; President Grant will not visit Pittsburgh for the purpose of making, on the open streets, a maliciously lying speech, and insulting the men who stood by the government, whilst he applauds red-handed rebels. If he does, we hope that the good citizens will HISS him so hard, and clap their hands so loud that not one rebellious note can be heard, just as they did on the occasion referred to. If he shall imitate Andy Johnson in any of his blasphemous and traitorous harangues, we hope he will receive the same treatment that that innocent lamb was compelled to suffer, at the hands of an outraged loyal community. If he shall so far forget himself as to "swing round a circle," wrapped up in the constitution and the flag and attempt to call all of his people, who differ from him in politics, knaves, fools, fiends, etc., we hope he will be not only impeached, but found guilty, and consigned to an eternal oblivion, just as Andy was. Is the *Post* satisfied?

IT IS REPRESENTED by almost every citizen who has been summoned to give testimony before the Ku-Klux Investigating Committee, that it is next to impossible for any man, white or black, entertaining Republican principles, to live in peace and safety in a Southern State. The evident intention of these midnight desperadoes is to bully the whites, and terrify the blacks, when they do not kill them, so that the Republican ticket will not have any open supporters, or supporters at all, in the election for President in 1872 throughout the South.

It is their only hope of carrying the Southern States. In nearly every one of them, where the people are permitted to vote as they wish, the Republican ticket will secure a majority. The blacks to a man vote with us, and a sufficient number of the Unionist whites are Republicans to enable us to carry two-thirds of the States without a doubt, if an honest election is held. Every ex Rebel is a Democrat. Every member of this fiendish order is a Democrat, every colored man, and every Union man is a Republican. Can any good citizen hesitate as to what party he should belong and vote with? All the traitors and Ku-klux on one side, and all the Unionists on the other.

THERE ARE RUMORS in the air, that the late Democratic candidate for the Vice Presidency, owing to the probability of the Northern Democracy accepting the issues of the war, in other words the "New Departure," and also in some measure owing to the fact that as a member of the Kuklux Committee he has become disgusted with Democracy, is about deserting his new found friends, and intends to ask admission into the Republican fold, wherefrom he should never have strayed.

If such a rumor prove to be founded in fact, his exodus from the Democratic party, will be a blow which will stagger the unterrified, if it do not utterly destroy them as a political body. They have relied upon Frank Blair for much amunition, and placed him on the Kuklux Committee on purpose to refute the tell-tale story, when it shall be made to Congress, and if the evidence has been sufficient to convince him of the existence of this fiendish order, and that its purposes and machinations are winked at, and abetted by the Democratic party, all the departures ever conceived of, will not save them from exposure, condemnation and dissolution. Whatever side Frank is on, he will speak out his mind freely, and his silence gives strength to the rumor that he is preparing to abandon Democracy.

DEMOCRATIC ECONOMY.

We commend the following interesting clipping, to those of our readers, if there be any, who may imagine that the Republican press is too bitter in its denunciation of the "wholesale robberies" of the Tammany Ring. What would our steady-going citizens think of such management by our city officials?

The wholesale robbery practiced by the Democratic government of New York city is being clearly shown up by the *Times*, which is pushing the work of exposure with commendable zeal. Though Controller Connolly has refused compliance with the law requiring reports to be made at stated times of the city's finances, the *Times* has managed to obtain transcripts from the records, and is giving publicity to swindles and downright thefts of the most outrageous character, in which not only the Controller himself and Mayor Hall, but other members of the notorious Tammany Ring are charged with participation. Among the items of plunder mentioned in a recent article is $85,000 charged to the city for the rent of ten lofts ostensibly occupied for armory purposes, but *actually not used at all;* $190,000 a year additional being charged for the rent of the armories really occupied. For keeping ten armories in repair nine months the following preposterous sums are charged:

A. J. Garvey, for plastering..	$197,330 24
John H. Keyser, for plumbing	142,329 71
J. H. Ingersoll, for chairs !...	170,729 60
G. S. Miller, for carpenter work	434,064 31
Total....................	$941,453 86

Is any Democrat sufficiently idiotic to believe that the one-hundredth part of these sums were actually paid to the parties named, and that the work actually done and articles furnished were really worth even one-half that small fraction? Of course not. The other ninety-nine hundredths represent the profits, or rather the *stealings* of the ring. And yet these are only some of the crumbs.

The whole loaves and fishes devoured by these cormorants at the expense of the tax-payers amount, in many cases, there is good reason for believing, to millions of dollars. In the same nine months referred to, $4,000,000 realized from the sale of revenue bonds, were drawn out of the city treasury and paid to the agent of the ring!

The chairmaker, whose bill for chairs furnished to ten armories during nine months amounted to *one hundred and seventy thousand seven hundred and twenty-nine dollars and sixty cents*, is said to be a brother-in-law of Tweed, the recognized head of the Tammany ring.

GROWTH OF THE PETROLEUM TRADE.

THE exports of petroleum in 1870 were thirty-seven per cent. greater than those of the previous year, and nearly all this increase, of thirty-seven per cent., is accounted for by the shipments from the port of New York. The total exports from the United States in 1870 was 141,208,155 gallons, against 1,500,000 gallons in 1860, and 99,281,000 gallons in 1868; showing an increase of nearly 42,000,000 in two years. The first sale noticed for export was in May, 1861, when 10,000 gallons were sent to foreign markets. Antwerp, which has since led all other ports in the importation of petroleum, took in that year 5,671 gallons, increasing the amount in the following year more than 800,000 gallons. Great Britain took 579,000 gallons in 1861, and in 1862 increased her importation to 3,238,000 gallons. The continued growth of this trade for ten years—from 1,500,000 gallons in 1860 to 141,000,000 in 1870—is a wonderful exhibit, not only on account of the rapid development of the oil interest, but also because the yearly increase has been steady. The daily average product of the Pennsylvania oil district in December, 1867, was 10,400 barrels of 43 gallons each; in the same month of 1870, it was 15,214 barrels—a fact which shows the inexhaustibility of the wells in that region. In regard to the home consumption it is estimated that it is equal to one-half the quantity exported—making, in round numbers, an aggregate consumption of 211,000,000 gallons annually. This enormous amount, reckoning the price at an average of twenty cents per gallon, represents a value of more than $42,000,000 for a single year—certainly a remarkable return for a product unknown to commerce ten years ago.

It might be interesting to inquire how much of this vast export was shipped by Pittsburgh, and what the prospect is for our city retaining its position as a leading manufacturer of refined petroleum.

Of the five million barrels consumed in 1870, our refiners furnished about one fifth, or one million barrels. Their capacity is about double this amount, and for some reason or another, they have run but one-half of the time. In 1863, Pittsburgh made nearly all of the refined oil shipped from, or consumed in the United States. Cleveland now manufactures nearly double the quantity we do, and so does New York; Philadelphia, Boston and Titusville supplying the remainder of the five million barrels. We can see no good reason why Pittsburgh should not increase its capacity, as our railroad connection with the oil regions is now complete and abundantly able to transport all the raw material required by us. In addition to this, there is still a considerable quantity comes by water, although this route is being abandoned on account of the risk attending it.

Our proximity to the sections of country from which most of the timber for barrels is furnished, and the use of water communication for the same are much in our favor. Fuel of course is in constant and inexhaustible supply. The old clamor of a want of a competing line to the seaboard is not now insisted on; the completion of the Connellsville railroad having supplied that deficiency. We can therefore see no reason why Pittsburgh should not hereafter furnish more of this valuable article than in the past years. Everything is in our favor, and we shall look for a much larger business in 1871 and 1872 than ever before, thus placing Pittsburgh again at the head of the list as a manufacturer of refined petroleum.

OUR SEA SHORE LETTER.

[Correspondence Pittsburgh Gazette.]

CAPE MAY July 19th, 1871.

Will a cool breeze from the shores of the resounding sea be refreshing to you, or are you, too, having cool breezes at home? Here the summer has been unusually pleasant, and the bathing is simply superb. Cape May is perhaps excelled in many ways by Newport and Long Branch, but I do not believe there is such another surf, bathing place in the world. You do not have to go in here, clinging to a water-logged cable, as you do at Long Branch, or with the expectation—pretty certain to be realized—of going back a cold corpse, as is customary at Atlantic City. Of all the scenes of jollity and revelry which I have witnessed, I determine each year, that the surf at Cape May is the maddest and merriest. The quaint costumes the absurd old hats with the tucked up hair, the absence of restraint and fear and the luxury of a wrestle with the democratic sea, all combine to make the picture complete and unrivaled.

There are not, by any means, so many fine teams or gorgeous equipages here as there are at Long Branch, nor is there that air of elegance and partial exclusiveness which distinguishes Newport, but there are plenty of horses and carriages, landaus, phaetons, and others, such as they are, and an enormous supply of people of all sorts. There are the old families who used to come here, when it was an evidence of wealth to be able to get here, and who still come, finding the delights of the bathing more than balance the objectionable character of the human mixture. Then there are invalids who are ordered here by their physicians; there are quiet people who live in cottages; there are gay parties who come because it is fashionable and pleasant, and there are other people who come in hopes of appearing to be somebody. Besides this, there are vast armies of excursionists who come from Philadelphia to spend Sunday and get a dip in the ocean.

The hotels are crowded, especially the aristocratic Stockton and the old and ever popular Congress Hall. Hops are of nightly occurrence and much frequented. A novelty, at least it was such to me, was croquet on the beach. I watched a game of this kind the other day and it seemed to be very enjoyable. There were four in the party, all well known faces at home, and the way a certain lady from the Buckeye State sent her opponents' balls spinning along the sand, betokened an amount of vindictiveness hardly to be expected from the owner of so sweet a face. But this is becoming personal, and I do not want to do that, or I might tell of many a last winter's belle who, having conquered the susceptible masculine hearts in the smoky city, has come here like Alexander, in search of new worlds to overcome. I might mention one jolly quartette, whose handsome villas, mighty iron works or large banking capital could ill be spared from the iron metropolis. In fact I might fill your paper with personalites if I chose, but I don't.

Last week the time-honored sack race took place. Cape May would not be Cape May without this annual bit of childishness. As usual the lawn of Congress Hall was the race course, and every window and piazza was filled with spectators. The course was one hundred and twenty yards long. Seven colored waiters were tied in bags all but their heads, and then started on their way. Of course there was any amount of falling and rolling, and of course the contestants were extravagantly encouraged. Each lady expressed an interest in that one of the waiters who had attended to her wants in the past, and the victor was the recipient of much loud-voiced applause. This sort of thing is always the same.

But I am stringing out too long a letter. As far as I can see the season is much like others, from a fashionable point of view. Pittsburgh is as well represented as usual in every respect, and that is all that is necessary to say.

Adieu. NEP.

POLITICAL.

THE Conservative State Executive Committee of Virginia have decided to call a convention on the 30th of August for the reorganization of the party.

THE Missouri *Republican* has authority to state that Senator Schurz has *not* written a letter favoring the nomination of Charles Francis Adams for the Presidency.

THE Democrats of Sacramento, California, are annoyed by the discovery that one of their candidates for the State Senate during the rebellion passed under a name different from that by which they know him.

COMMENTING on General McClellan's letter to "Boss" Tweed, accepting the New Departure, *The Pottsville Standard* recalls the General's departure for Europe, after being defeated for the Presidency, "leaving the party to obloquy and persecution without a word or a line of encouragement," and says: "He did not seem to be of or with the party then, and this epistolary effort shows that he is not with it now."

THE opinion seems to be general that the convention of the "copperhead" wing of the Democrats in Iowa, which has been called to meet in Des Moines, August 15, will be a large and influential meeting. Several Democratic papers support the movement. The leaders in this old departure seem to be in earnest, and threaten to nominate an entirely new ticket for State officers as well as to present a reconstructed platform.

THE Memphis *Appeal* encourages the Bourbons of Tennessee with a spirited poem in opposition to the New Departure. The following is the first verse:

> When you see a little fellow mortal,
> Without fixed and fearless views,
> Hanging on the skirts of others,
> Walking in their cast-off shoes,
> Bowing low to wealth or favor,
> With abject, uncovered head,
> Ready to retract or waver,
> Willing to be drove or led;
> Walk yourself with firmer bearing,
> Throw your moral shoulders back,
> Show your spine has nerve and marrow—
> Just the thing which he must lack.

The Captured War Material.

The French are anxious, if possible, to regain possession of their lost articles of war, as far as that is not hopeless by their character as trophies. Where captures are made in such a wholesale way, filling whole arsenals, the ideal value of trophies is almost lost beside the money value of saleable goods. To a commercial country the money would probably be more acceptable than the unwieldy piles of cannon and rifles, a great portion of which must be useless. Counting on this disposition, the French Government has made offers to the German to exchange such useful articles of war as it thinks fit for their fair money value. Prince Bismarck has refused to strike the bargain, upon sentimental grounds. M. Thiers is now reported to be employing agents who are trying to gain possession of the arms ostensibly for themselves, in reality for France.

BY MAIL FROM ABROAD.

A BUREAU has been established at Frankfort-on-the-Main for the purpose of supplying German capitalists with information about American financial and other affairs. A weekly paper entitled "The German-American Economist," is published by this bureau for the use of bankers, merchants, and persons intending to emigrate.

THE Lord Mayor of London gave a dinner to the Bishops on July 5th. The Archbishop of Armagh, speaking for the Archbishops and Bishops, said that the Irish Church had now thrown itself entirely on its people. Its constitution was based on universal suffrage; every communicant in it was called upon to take part in rebuilding the Church, and the call had met with a very hearty response.

LORD TENTERDEN, of the High Commission, has written a private letter to a friend here, in which he says he does not know what has happened to the English climate; but that anything more horrid than the exchange from the brightness of New York to the chill and gloom of London, as it now is, could hardly be imagined. He wishes he could borrow some of the sunshine from Fifth avenue, for he has hardly seen the sun since his return.

A CORRESPONDENT at Schaffhausen, writing to the *Journal de Geneve*, reports the following case of religious persecution in Switzerland: "A young man admitted to the Communion in 1869, and now aged nineteen, has been condemned, at the instance of the pastor of his parish, to 4 francs fine and 17 francs cost for not having attended catechising. This young man is domiciled at Zargen; he has been for the last five weeks left in charge of the works on the property of his father, who is seventy-two years of age, and now under treatment by an oculist. The ecclesiastical tribunal was wholly indifferent to these circumstances, and as soon as the sentence was pronounced, ordered the delinquent to be apprehended and thrown into prison."

THE operation of lengthening screw steamers has been, says a Scotch journal, for some time past most successfully performed at Granton. The vessels are placed on the patent slip in the usual way, and in the course of a day or two are cut in two and drawn apart to the requisite length. The space between them is then built up, and in a few weeks the vessel is again ready for sea. The steamship Garrison, the last vessel lengthened in this manner, which is now about to sail from Granton to Constantinople, was made 31 feet longer. This has increased her carrying power from 659 to 1,280 tuns without diminishing her speed, or rendering a large crew necessary. The advantage thus gained to owners whose vessels and trade require the outlay is equal, in the case of the Garrison, to a new steamer of 350 tuns, without the great expense of engines, coal, or crew.

THE German weekly paper *Im Neuen Reich* says that Germany "has also her Black Sea question." The town of Wismar, on the Mecklenburg coast, which formerly belonged to Sweden, was in the seventeenth century one of the strongest fortresses in Europe. It was repeatedly besieged and taken, its value being universally recognized as of great strategic importance to the Swedish army; and in 1716 Russia compelled Sweden to sign a treaty, under which the fortifications were to be demolished, and not to be again rebuilt. This treaty also provided that the town and its bay should never be used as a naval station or harbor, so that the bay was to all intents and purposes neutralized. In 1803, the King of Sweden ceded by the Treaty of Malmoe his sovereign rights over Wismar to the Duke of Mecklenburg; but on the principle that a man cannot give rights to another which he does not possess himself, the bay, though now German territory, continues to be neutral as before. It is now suggested that Germany should abolish or modify the treaty.

THE London *Medical Press and Circular* of a recent date says: "In the midst of the troubles and difficulties which accumulated on the shoulders of the over worked and bewildered municipality of Buenos Ayres during the hight of the plague, the serenos and vigilantes (or policemen) struck for higher wages, and the panic having extended to the grave-diggers, for many days no one could be found to put the dead under the ground, and the coffins were therefore piled up in a stack at the Southern Cemetery as the hearses and carts brought them in. The scenes at the cemetery were something frightful to behold, and reminded one only of the horrible stories recorded of the plague of London. A large trench was dug into which the dead bodies, some coffined, but many merely swathed in bed-clothes, were shot out of the carts and quickly covered with lime—the trench remaining open until it was filled, when another was dug and the dreadful work recommenced. It is computed that over twenty thousand persons found their last resting places in these pits.

IN the House of Lords of Great Britain, on the 3d of July, Lord Strathnairn moved for returns relative to recruiting for the army. In doing so he said that Mr. Cardwell's scheme for the reorganization of the army contemplated an army in the first line and reserves in the second and third lines, the reserves to be composed of the men who had passed their terms of service in the army. It was based on the Prussian plan, in the entire forgetfulness of the fact that, in Prusia, there was compulsory enlistment, which brought the choicest part of the manhood of the country into the ranks of the army, and it was thus possible to transfer them after a certain period of service to the ranks of the reserve without unduly weakening the army. In England, however, there was no conscription, and therefore it was difficult to carry out this system. Lord Sandhurst expressed his gratification that the War Office had determined no longer to send raw boys to India. Lord Northbrook adverted to the immense improvement in the condition of the private soldiers of late years. He also cited statistics relative to the mortality of the troops in India, showing that the rate had diminished from 60 per 1,000 to nearly half that number.

A NEW ORLEANS SENSATION.

Death of a Mysterious Old Man who Possessed the Bourbon Diadem.

[From the New Orleans Picayune, July 16.]

Few of the residents in the lower part of the city of late years but are familiar with some of the incidents we are now relating. They have often seen in the twilight of summer evenings a singular apparation. Suddenly, on the banquette of Music street has appeared an old man, with long gray hair, and clad in the costume of half a century ago. The garments were faded and worn, but revealed a richness which in earlier days was more fitted for a court than an American metropolis. He was a very tall man, although a hunchback, and but for the deformity would have been of gigantic proportions. In the breadth of shoulders, the deep powerful chest, and long nervous arms resided marvelous strength, while the lower limbs, fashioned in magnificent strength and beauty, arrested attention and commanded admiration wherever he appeared. He spoke to no one, but in silent abstraction pursued his lonely walk far into the night. Years went by, and night after night little children paused in their play to watch the receding form of the lonely man.

It must have been forty years ago that he first came among us. He looked middle aged then; but as the years flew by the sturday frame remained flexible and active, but the hair grew gray and his face was seamed with wrinkles.

He lived in a little brick building that set back from the street. Wild vines crept over the crumbling tiles and wreathed fantastics shapes on the chimney tops. In the yard beautiful flowers bloomed all the year round, and their rich perfume made the air sensuous and sweet. At a window shaded by a trellis work hid in the bloom of roses, the old man sat of afternoons and watched the sun's decline. No one else was ever seen in the house—no one ever crossed the threshold; and so he lived, a smileless, sad old man, in a lonely house.

But one day, not a great while since, the neighbors saw that the blinds in the house were closed. The old man had not appeared on the street for weeks, and the grass had begun to grow from the chinks of the marble slabs at his door, and it began to be whispered about the old man was dead.

At last, one day, the neighbors went in (they were poor people, but kindly and true). Sure enough he was dead. He lay pallid and stark on a pallet of straw. There were a few scattered chairs around the room and a plain table. One only object arrested the eye: Near the body was a rich casket, set in mother of pearl and gold. Jewels flashed from the costly lid, and wreathed in the dust of diamonds were engraved the "Lilies of France" in a coronet of gold. They opened the box and there flashed on their eyes the *Bourbon diadem*. It was stolen the night of the 16th of August, 1830, when Charles the Tenth abdicated the throne of France in favor of the Duke of Bordeaux. Underneath it was a manuscript, written in French. It contained only these words:

"I am Charette, the Vendean General. Maria of Savoy was to have been my wife. She was taken from me and given to the Comte d'Artois. I could have forgiven this, but he deserted me when I most needed his help and assistance. I revenged myself and procured his overthrow, and am happy since he died in exile."

This was all. Over his life silence now draws a veil. His wayward passions, his inward conflicts, none can estimate. Lonely and sad he perished in exile; none could appreciate his injuries; let none judge too harshly of his life.

THE BEST TRUSSES IN THE WORLD.

If there is any infirmity that needs care and extra attention it is this. Rupture of the bowels, as there can hardly be any protrusion of them, even for an hour, without endangering life and exposing the patient to imminent peril. We have examined hundreds of persons who have gone all the rounds in the vain endeavor to obtain suitable Trusses to retain their rupture, and without being successful Not one of these cases but could have been cured in the early stage of rupture, and even after years of neglect many of them can be cured, if they will only make application to some one thoroughly conversant with the malady in question. What, to most persons, is the expense of a few dollars for a well-fitting Truss, properly applied, when in many cases it is the means of saving a life and adding to his comfort for years? The prevailing belief that rupture is incurable has done incalculable mischief by making persons careless with regard to the same; whilst, if they did try to get well, they can certainly be no worse off for having made the attempt. There are so many cases that resemble rupture that we would advise all our readers to make application to a competent establishment, such as Dr. KEYSER'S, 167 Liberty street, where Trusses from two to twenty dollars can be obtained.

A PERILOUS SEASON.

Glorious and delightful as the Summer weather is, its tropical heat is a severe trial to the vital powers. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now, general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirits depressed. This is what is called general debility. It is a general disarrangement of all the physical functions, and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sympathizes with the body, is gloomy and despondent, it relieves the difficulty, and soon brings the whole mechanism of the body into harmony with the laws of health.

There is no civilized nation in the Western Hemisphere in which the utility of Hostetter's Stomach Bitters as a tonic, corrective, and antibilious medicine, is not known and appreciated. Throughout the Tropics it is considered, both by the people and the profession, the standard specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the weather, being the purest and best vegetable stimulant in the world.

Beware of the Bitters made of acrid and dangerous materials, which unscrupulous parties are endeavoring to foist upon the people. Their name is legion, and the public has no guarantee that they are not poisonous. Adhere to the tried remedy, Hostetter's Bitters, sold only in glass and never in kegs or barrels.

Johnstown Improved Hydraulic Cement,
This Cement is equal to any cement made in the United States, in many respects better than the Louisville Cement or the Rosendale, and decidedly better in all respects than the Uniontown or Akron Cement. It has a smaller amount of shrinkage, sets gradual, bears as much sand as any cement made, and gets as hard; stands frost well it has all the qualities that hydraulic cement should have. The facilities for getting this cement is greater than all others in this market, less freight and fresher, which is an important matter Having but a short distance to ship we can therefore sell cheaper than any other in the market.

Finance and Trade.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, July 22, 1871.

The week has been a dull one in financial and business circles. The limited amount of trade, and the absence of operators in stocks, together with the abundance of money, have combined to make dull times all around. Really first class investments are not plenty, and business paper also continues scarce, so that the amount of idle money is just at present larger than usual. There are plenty of Railroad mortgage bonds of all sorts to be had, but the experience of those who were led to buy Union Pacifics at 105, upon the plea that they would never fall below par again, does not strengthen confidence in the best of those, now so freely offered to the confiding public.

Allegheny Valley 7-30 Bonds at 92@95, make a fair investment for that class of security, and one that we feel much freer to recommend than those of larger enterprise over whose future the most sanguine will honestly confess there is some doubt. Connellsville 7's at the same price seem to be safe and reliable for our country friends, who want something near at hand of whose business they can have daily ocular demonstration.

Bank stocks are firmly held—a few lots were offered during the week, and readily picked up at full prices. A small lot (20 shares) of the Pittsburgh Savings Bank was offered to-day at par. There is more enquiring for Columbia oil stock—and bids of $20 per share are reported. The stock was offered at $21, but without finding buyers.

NEW YORK, July 22, 1870.

Gold weak, opening at 112, declining to and closing at 111⅞. Loans 1 per cent. Clearings about $34,000,000. Exports to-day about $600,000. Exports for the week $1,479,859. The weakness in gold was caused by heaviness in foreign exchange. Governments moved in sympathy with it and are a fraction lower, with small business. The stock market has been excited all day. The Bears have attacked almost every stock on the list, but all reacted except Hannibal and St. Joe, which was very weak and much lower. The principal dealings have been in Lake Shore, Western Union, Northwestern, Ohio and Mississippi, New York Central and Hannibal and St. Joe. The Western Union and Ohios have been most active; the Bears sold them largely to strong parties buying to-day. The *Express* says the immediate cause in this fresh decline in both classes of Hannibal and St. Joe stock may be traced to a report current on the street that the company will have to pay the State of Missouri this year $1,500,000 on bonds issued in aid of the road. The event next week will be a meeting of the directors of the Lake Shore road at Cleveland. The result of their action, it is believed, will determine the future course of the market.

The Bank Statement shows an increase in reserve of about $700,000. The following are the changes: Loans, decrease $1,273,569; specie, decrease $1,616,293; legal tenders, increase $1,844,794; deposits, decrease, $1,797,231; circulation, decrease $9,775. Money easy at 2@2½ per cent. State bonds dull, except Tennessee and Missouri. They have been active but not very strong.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, July 22, 1871.

ASHES—Common Soda ash, 4@4⅜; refined, 4⅜@4⅜; Pearls, 9; Pots, 7⅜; Nitrate Soda, 4⅜.

BEANS—Prime navy $2@2.25 per bushel.

BUTTER—Continues dull with no change, however, in prices; 16@17 for prime to choice; 12@14 for fair to good and 8@9 for grease butter. As the season advances, with a continuance of fine rains all over the country, the prospect is certainly not favorble for those holding over stocks, and the indications at present are that those who are "piling up" in anticipatation of improved prices will be disappointed.

BROOM CORN—Is steady but unchanged, 5@7 cts per lb.

BEESWAX—There is some inquiry to fill orders, and the market is bare; we continue to quote at 33@35.

CEMENT—Louisville, $2,50@3,00 per bbl. Rosendale, $4,00@4,50; Calcined Plaster, $4.25 @4.50.

COUNTRY MEAT—Dull and nominally unchanged. Country Lard, 9@10 cts.

CANNED GOODS—Season is about over—stock pretty well reduced.

CHEESE—Is in good supply and the receipts continue liberal but prices, particularly for strictly prime, are still maintained. Prime Ohio Goshen, 10⅜@11; prime Factory, 9⅜@10; Dairy 8@9.

CORN MEAL—Is still quoted in a jobbing way at 80@85 per bushel.

CARBON OIL—Standard brands still quoted at 24 cts. in a jobbing way—usual advance for small lots.

EGGS—The supply of strictly fresh eggs is comparatively light though it is still pretty well up to the demand; their is a good deal of old stock and this of course tends somewhat to curtail demand for fresh and prevents any improvement in prices; quotations for the latter kind may be fairly gived at 15@16.

FRUITS—Apples in steady demand and we can report regular sales at $2@4 per bbl. Peaches selling all the way from $1@2.25 per box, the outside figure for choice "freestones." Plums, $4@5 per bushel. Blackberries, 90@$1,00 per bucket. Little or nothing doing in Oranges or Lemons. Dried Fruit, ditto. Foreign Fruits dull and unchanged.

FLOUR—Continues dull and weak, and prices are drooping; buyers are taking hold sparingly, in anticipation of a still further decline, and holders, for the same reason, are anxious to realize. We continue to quote good spring extras at $6.75; choice bakers flour, $7; and good standard red winter wheat flour cannot be fairly quoted above $7. Rye Flour dull and lower; $5@5.50.

GRAIN—Wheat continues very dull and notwithstanding the arrivals are very small, prices are weak and drooping; we understand that the mills are not willing to pay over $1,20 for prime (new) red and, at present, not very anxious to buy even at that. Old red wheat is still quoted at $1,25@1.30 for good to strictly prime, with but little offering. Oats weak, in consequence of the decline in Chicago, and prices are lower; we can report sales, of 62@62⅜. for prime old, free in elevator; sales of new crop to arrive at 47@49, buyers furnishing sacks. Corn is quiet and unchanged; sales at 68@90c for mixed to prime yellow, in bulk; the receipts seem to be on the increase again, but as yet the supply in this market is by no means large. Rye is offering pretty freely, particularly from the west, and so far as we can learn, there are no buyers above 80 cts, a decline of fully 20 cts per bushel within the past two weeks. The market for Barley has not opened up yet, and it is difficult to give quotations; samples, however, are coming in pretty freely and we expect to be able to report some sales within the next few days. As intimated in our last report, it is generally conceded that the supply, particularly in the section of country tributary to this market, will be considerably short of last year.

GROCERIES—Telegrams from the east today, report a firmer feeling in sugars and that raws are held at an advance of an eighth of a cent. Coffees are firmer and within the past week, the finer grades of Rio has been advanced fully ⅜ a cent per pound, and this, too, in the face of an unusually heavy supply in this country. Molasses, Syrups, Rice, etc etc, quiet and devoid of any new features worthy of notice.

COFFEE—Fancy Rio, 19⅜; Prime, 18⅜; Good 17; Fair, 16⅜; Roasting, 15⅜@16.

SYRUPS AND DRIPS—White Honey, 72; Havemyer & Elders, 72; Silver Drips, 60; other grades, 45@55.

SUGARS—Choice New Orleans, 11⅜; prime, 11⅜ good, 10⅜; fully fair, 10⅜; Porto Rico Sugars, 10⅜@11⅜; Cuba, 10@11; Demarara, 11⅜ @12⅜.

REFINED SUGARS—Hard Sugars, 14; A Coffee, 13; "B," 12⅜; Extra C, 12⅜; C. yellow, 12⅜.

MOLASSES—New Orleans, choice, 70; prime, 68; good, 65.

TEAS—Fancy Young Hyson, $1 40; Good, $1 10; Fair $1. Lower grades down to 70cts. G. P. Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 25; fair, $1; Oolong fancy, $1 25; good, 80cts; fair, 60@70c. Souchong fancy, $1 20; good, 90c; fair, 70@80c. Japan Fancy, $1; good, 90c; fair, 75c.

RICE—Choice Carolina, 10c; prime, 9⅜c; good, 9c.

SPICES—Grain Pepper, 22c. Pimento, 17c. Cloves, 20c. Cassia, 55c.

HAY—Baled continues to arrive freely and with a supply consideraly in excess of the demand, prices have still further declined; we now quote at $20@23 per ton, on wharf and track.

HONEY—We can report sales in a regular way at 25@30 cts per lb, for fair to choice.

HIDES—Green Salted, 10⅜@11⅜; Green Butcher's, 8; Dry Flint, 21@22; Green Calf Skins, 14@15; Green Salted Calf, 17@18.

HUSKS—Quoted at 2⅜@2⅜ cts.

HEMP—Sales of rough Kentucky at $165 per ton; dressed, 12⅜ cts per lb.

LIME—Perrysburg white, $2,00@2.25 per bbl; Cleveland $2.25; Eastern, $1,75.

MILL FEED—Dull and unchanged.

OIL—No. 1 Extra Lard Oil, (Pittsburgh manufacture) quoted at 72@73 in round lots, and 75c in a jobbing way.

ONIONS—There is a moderate demand and we can report sales at $3@4 per bbl, according to quality.

POTATOES—Continue dull and unchanged; sales at $2,00@2.50 per bbl.

POULTRY—There is considerable inquiry for live chickens, and the market is almost bare; may be quoted at 55@60c for young, and 70@75c for old.

PROVISIONS—Plain Shoulders, 7@7⅜; ribbed sides, 9; clear, 10c, Breakfast Bacon, 13⅜; plain, and 14⅜@15, sugar cured; sugar cured shoulders, 10⅜@11c; hams, 15⅜@16c. Dried Beef, canvassed, 18c. Lard, 11@11⅜ in tcs, and 12@12⅜ in kegs.

PEA NUTS—11 cts. per lb.

RAGS—Sales, 4@4⅜ cts per lb.

SEEDS—There is nothing doing in seeds. Flaxseed would sell but there is none offering.

SUMAC—Sales Tennessee Sumac at 4⅜ cts.

WILLOWS—Scarce and firm at 10 cts.

PITTSBURGH CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, July 22, 1871.

RECEIPTS STOCK.

The receipts of stock at the Central Yards for the week ending to-day, were as follows:

	This week.	Last week.
Cattle	372 cars.	407 cars.
Hogs	118 "	160 "
Sheep	114 "	92 "
Horses	18 "	21 "
Mules	4 "	5 "
Total	626 "	685 "

CATTLE

The receipts, as will be seen, were considerably below last week, 372 cars against 407; it should be borne in mind, however, that the number of through cattle was not as large as that of last week, so that the supply on sale was greater than the statement of the receipts would indicate; and while the market was fairly active, the sales in the aggregate being nearly, perhaps altogether, up to those of last week, prices are lower, fully half a cent. The average quality was about what it has been for some time past, the great bulk of the offerings being of a mixed character, including a number of Texas steers, which sold at from 3⅜@4 cts. Prime to extra shipping steers averaging 1,300@1 500 lbs, fat and smooth, may be quoted at 5⅜@6 cts, and fair to medium at 5@5⅜. Stock cattle, averaging from 800@1,000 lbs, quotable at 3⅜@4.

SHEEP.

Receipts 114 cars against 92 cars last week; market has been heavy all week, though prices were maintained. Prime to extra 100 to 110 lb sheep may be quoted at 5@5⅜; good 80 to 90 lbs averages, 4@4⅜; inferior to common 3@3⅜. Scalawags, $1@1,50 per head. It is not likely, however, that their will be much if any decline soon, as growers, in view of good pasture and plenty of it, together with the high price of wool, are indifferent about selling.

HOGS.

Receipts 118 cars against 160 cars last week; with a diminished supply and an improved demand, the market has ruled strong and somewhat excited, particularly within the past few days, and as compared with this day week, prices have advanced ⅜@⅜ of a cent per lb. And, what is more remarkable, is the fact that light hogs are worth just as much as prime heavy ones, and, in addition, sell more readily at the same pric ; quotations to-day may be fairly given at 5⅜@5⅜—one sale, and only one, at $5.55. So far as we could learn, however, dealers have not much confidence in the advance being sustained, as it is expected that the increased prices will increase the receipts, and if so, a reaction is almost certain, as the advance was brought mainly by a temporary scarcity.

Sugar, molasses, coffee and whisky all unchanged. Sterling 24⅜; sight unchanged; gold 112⅜.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY July 22, 1871.

The petroleum market has been exceedingly dull during the past week, the volume of business in the aggregate having been unusually light, and what is worse still, there is but little prospect of any immediate improvement. Crude has stiffened somewhat within the past few days; their was but little inquiry for it, prior to this bull movement, and there is less now; if refiners could do nothing with it then it is very sure that they do not want it now. In fact, they have been holding off for some time in anticipation of a decline, but instead of this, an effort is now being made to establish an advance. There is nothing in the position of the refined market, present or prospective, to justify it, and it is generally conceded that the production is increasing. Private advices from Philadelphia are by no means favorable in regard to refined; the stock is accumulation; tonnage is scarce and freights high, and it is said that some of the exporters, instead of buying, having been selling recently; yet in the face of all this, the producers are attempting to put crude higher, though it is not likely that they will succeed.

Receipts crude this week, 34,694; last week, 32,392; January 1st to date, 595 527; same time last year, 608,941. Exports refined this week, 21,798; last week, 18,660; January 1st to date, 341,320; same time last year 356,873. Sales this week, 19,000 bbls crude; 1,000 bbls refined; last week, 38,000 bbls crude 9,000 bbls refined.

REFINED.

Not a single sale reported; market dull but prices are unchanged; July, 25⅜@25⅜; August, 25⅜@25⅜; September, 25⅜@25⅜; October, 26. There is some inquiry at quotations, but refiners, in the present condition of affairs, are unwilling to sell.

CRUDE.

Seller July nominal at 12⅜@12⅜; seller all year, 12; buyer all year, 12. Sales of spot at Parker at $4.90, $4.95 and $4.97; spot on creek, $4 90; Oil City, $5,10; lines July to December, nominal at $5.

RIVER NEWS.

The river continues to recede at this point and all hopes of a July freshet have almost vanished. There has been considerable rain within the past few weeks, but not enough to make sufficient water to admit of a resumption of navigation. The weather yesterday was clear, cool and pleasant.

No arrivals or departures since the date of our last report, excepting the Monongahela river packet, and there are no boats due.

The celebrated "capstan case," in which Capts. John S. McMillan and Hugh Campbell are plaintiffs and Capt. John L. Rhodes defendant, will come up for trial within a few days. It has been in the hands of the lawyers for 15 or 16 years, and as it is a matter in which many of our steamboat owners are interested, its result will be looked for with considerable interest.

—Captain Barnes, of Galveston, has positively purchased the entire wreck of the steamer Leonidas for $2,300, and has contracted with Mr. Dowerman, of New Albany, to build a boat for the Buffalo bayou trade—165 feet long, 6 feet hold, and 32 feet beam. She will have the machinery of the Leonidas, 20 inch cylinders and 5⅜ feet stroke and new boilers. The boat will be launched by the 15th of September. The work of wrecking the Leonidas will commence at once, and be pushed forward with all possible dispatch.

—The H. M. Shreve broke her pitman strap, T head, fallower and both cylinder heads of her larboard engine at Thompson's Landing, about five miles below Helena, on Monday night. The broken machinery was taken up on the City of Cairo for repairs. The Shreve has paid her crew off, and will lay by until her repairs are completed, or until another steamer can be obtained to take her trip on the Red river. The Shreve is heavily laden.

—The steamer Schuyler was attached at St. Louis the other day by the United States Marshall for repair bill, owed the Carondelet Marine Railway and Dock Company. The amount owed is about $12,000. Captain John Bruner, commander of the Schuyler, proposes to charter another boat and put her immediately in the trade.

—The new towboat to be built by Wilson, Dunlevy & Co., of Wheeling, for Capt. R. C. Gray, will have five boilers, made of steel, from the Black Diamond Works of this city. It is said they will withstand a pressure of 700 pounds to the square inch.

—The Arlington got caught in a storm below Maysville, Wednesday afternoon, which carried away a portion of her pilot house, and threatened serious damage generally, but fortunately no other injury worthy of notice was sustained.

—The case of Thomas Williams et al. vs. the steamboat Leonidas, in the United States court, Cincinnati, was dismissed on Thursday morning by libelants, through their proctor, Mr. Richard Dyer.

—The Kirker brothers have not bought the Naoma as reported. The owners crawfished. The boat is to be put under the hammer, when the Messrs. Kirker may buy.

—Captain G. W. Bay, of the steamer John Crossley, has chartered Stuart & Co.'s new boat, the Lookout, and will run her between Portsmouth and Ironton.

—The Southern dry dock company offer their docks at New Orleans for sale. They cost $150,000, and are in good condition.

—There is abundance of water now below the falls to Cairo for any of the steamers now running on the lower Ohio.

—The wreck of the Welcome is in the hands of the United States marshal, at New Orleans, and will be sold shortly.

—The Wauanita left Cincinnati for Portsmouth on Thursday evening.

—The Arlington and Bellevernon have been laid up at Cincinnati.

DOLLAR SAVINGS BANK,
No. 124 Fourth Ave.
CHARTERED IN 1855.
ASSETS, $3 115 146.16.

Open daily from 9 o'clock A. M. to 3 o'clock P. M., and SATURDAY EVENINGS, from May 1st to November 1st, from 7 to 9 o'clock, and from November 1st to May 1st, from 6 to 8 o'clock.

Deposits received of all sums of not less than ONE DOLLAR, and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually in June and December, since the Bank was organized, at the rate of Six Per Cent. per year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year, without troubling the depositor to call, or even to present his pass book. At this rate money will double in less than twelve years.

Books containing the Charter, By-Laws, Rules and Regulations, furnished gratis, on application at the office.

GRATES. GRATES.
Keep Your Houses Clean,
AND
SAVE FUEL.
BY USING THE
Wellman Patent Reflector
STOVE AND GRATE,
Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.

2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, prove so detrimental to carpets and furniture.

3d. The combustion is *perfect.* There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.

4th. As an economizer of fuel—there being an *actual saving* of at least 25 per cent.

5th. It is highly ornamental.

6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.

7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner Third avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

HOME NEWS.

Business men whose families are out of the city during the summer, and transient visitors, will find J. B. Hubley & Co.'s establishment, 195 Penn avenue, Library Building, a nice place to get their breakfast, dinner and supper.

Y. M. C. A.—Owing to increased and unexpected labor in repairs, the rooms of this association will not be open for visitors until next Tuesday morning. The regular monthly meeting is therefore postponed until Saturday evening, July 29th.

Child Run Over.—Last Saturday afternoon, about four o'clock, a three year old child, daughter of Mr. Frank Eberle, living in Long alley, Allegheny, was run over by a wagon on Chestnut street, and severely injured. The child received a deep cut in the lower part of the abdomen, six inches in length, besides other injuries. The little sufferer was carried home and Dr. F. Scherer summoned, who dressed the wounds. The wound in the abdomen is of a very serious nature, although not necessarily fatal.

Arrested in Cincinnati.

Philip Thomas, against whom an information for forgery was made before Alderman Humbert by Mr. C. H. Lincoln, agent in this city for the Howe Sewing Machine, was arrested in Cincinnati last Friday, and will be brought back here on a requisition. It is alledged that while in the employ of Mr. Lincoln, Thomas sold a number of machines for cash and appropriated the money to his own use, turning over to his employer a number of notes alleged to be forgeries.

Those Suspicious Characters.

"Duck" Flinn, alias Finnerty, "Peggy" McCauliff and John Sullivan, alias Barry, whose arrest under very suspicious circumstances we mentioned Saturday, had their hearing Saturday morning. Flinn was sent to the Work House for six months, in default of $100 fine, and McCauliff and Sullivan for two months each, in default of $50 fine. Mr. Knipschild, from whose shops the chisels were stolen, will make information against the three for larceny. Flinn, before this transaction, owed the Work House several months' service, having escaped from that institution. He will have to make up his lost time after his six months expires.

Collision on the Pennsylvania Central.

Saturday morning an accident occurred on the Pennsylvania Railroad at Johnstown, which well nigh proved disastrous to the eastward bound Pacific express. It appears that about the time the express was nearing the town a car on an incline plane railway at that place broke a coupling and came down the plane with frightful velocity, reaching the track of the Pennsylvania Central just as the express was rounding a curve near by. Owing to this fact the car was not seen by the engineer, and his engine struck it with great force. Both car and engine were badly damaged, and the train was checked so suddenly as to be nearly thrown from the track. Another engine was soon procured, and the express speeded eastward after a brief detention. No person was injured by the accident.

Pure Mineral Waters.

It is astonishing what a great demand has sprung up for mineral waters in this city. As medicinal agents they are being very generally employed. In view of the great demand James E. Burns & Co., the well known druggists, corner of Sixth street and Penn avenue, have made a leading specialty of mineral waters and regularly receive cases fresh from the original springs. Elsewhere this morning the announcement is made of the receipt of Congress, St. Louis Magnetic, Hawthorne High Rock Congress, Saratoga and Katalysine spring waters in bottles. From the great Frost King Fountain are drawn the Excelsior, Vichy, Kissingen and Blue Lick waters, together with the ordinary soda waters, with fresh fruit syrups. In fact from the great and varied stock carried by the firm, the house of Burns & Co., may well be called the headquarters for mineral waters in the west. The other branches of the business of this first class drug and perfumery depot are as fresh and inviting as ever.

Two Husbands.

Samuel Eddy, who has just completed a seven years' term in the Western Penitentiary, came to the house of Peter Weaver, in the Second ward, last Saturday, and made a disturbance, claiming that Mrs. Weaver was his lawful wife, and demanded of Peter a vacation of the premises, or a loan of twenty dollars as the alternative. Weaver, it is said, declined to accede to either proposition, but said he was willing to decide the matter by a game of "old sledge," the party winning the first seven points to take the woman. This was rejected by Eddy on the ground that he was not "in play." A row ensued, and Eddy was arrested and taken before Alderman McMasters, when it was explained that, although Mrs. Weaver was Eddy's wife at the time of the latter's incarceration she is his wife no longer, having obtained a divorce and married Weaver. This explanation settled the matter, Eddy being reprimanded and Weaver retaining possession of the female.

POLICE NOTES.

Brief Mention of Criminalities.

George Pain is likely to suffer pain—mental pain at least—from legal difficulties, as it has become the painful duty of Officer Baldwin to arrest him on an information made before Alderman McMasters by James Dougherty, charging him with being a common barrator' "loafing" around saloons and then bringing malicious prosecutions against the proprietors. George is a colored man.

Nineteen cases disposed of by Mayor Brush on Saturday morning.

Wm. Fowler was sent to the Workhouse for thirty days by Mayor Brush on Saturday for drunkenness.

Michael Hennay for beating Andrew Olson with his fists is wanted at Justice Salisbury's office, East Birmingham.

Terrence Laughlin was transferred from the Soldiers Home to the work-house on Saturday. Mayor Brush considers Terrence a vagrant.

One hundred and seventy-four in the work-house.

Tom Brandy was sent to the Workhouse for seven months by Justice Ammon, of East Birmingham, Saturday morning. His offenses were drunkenness, disorderly conduct, good-for-nothingness, vagrancy, and he was suspected of being a little dishonest. Mr. Zellers' tavern was robbed of fifteen dollars and a box of cigars Friday night, and it was thought Brandy had a hand in that transaction.

ROBINSON AGAIN.

His Pledge Broken—Desperate Resistence Offered Arresting Officers—In the Tombs.

Johnny Robinson left the Work House some time ago with the full determination to reform his ways and to let whiskey, the curse of his life, severely alone. His good resolution even went so far as to lead him to enter a solemn oath, administered by the Prothonotary, and now on record, that for one year he would not permit himself to indulge in the intoxicating drinks that had cost him so much trouble and sorrow in the past. Unfortunately human flesh is weak, and Johnny's appears particularly so, as only a few days have elapsed since his renunciation of the flowing bowl, and yet last night he fell again a victim to strong drink. Meeting with companions he drank to excess and about midnight became noisy and turbulent on the corner of Seventh avenue and Smithfield street. Officer Mulvany remonstrated with him to no purpose, and finally placed him under arrest. Robinson resisted with the strength of a lion and a number of policemen were called to help take him to the tombs. After great difficulty he was finally presented to Captain Reed and a charge made of drunkenness and disorderly conduct by Officer Mulvany against him. To the accusing policeman Robinson addressed the foulest of foul language and made dire threats of revenge. Indeed, Officer Mulvany deserves great credit for his calmness and discretion, for very few persons could have endured without resenting the torrent of vile abuse heaped upon him. When captain Reed took hold of the prisoner to place him in a cell he again made most desperate resistance and maces were used quite lively to bring him to terms. He was finally mastered, and will be up for judgment and doubtless another term to the work house before Mayor Brush this morning.

Robinson is a phenomenon in his way. When he is sober he is as tractable as a child; when drunk he is the reverse to an extreme. He has been beaten and hammered and punched enough during his life to have caused the death of any ordinary man. With a thorough consciousness that liquor crazes his brain and inevitably leads him into difficulties, in which he always comes out worst, still he cannot resist the terrible temptation of rum. If he does not stop short now after last night's experience, he may as well settle down to the fact that he is either destined to be killed or to kill some one in his fits of drunkenness. By the way, in connection with this subject, might it not be well for the authorities to endeavor to ascertain at what saloon Robinson yesterday obtained strong drink?

Rev. Dr. M. Jacobus, brother of Rev. Dr. Jacobus of this city, who for the past forty years presided over the Pennsyvania College at Gettysburg, died on Saturday. The announcement of his death will cause much sorrow to a large number of friends and acquaintances in this city.

Fasten a nail or key to a string, and suspend it to your thumb and finger, and the nail will oscillate like a pendulum. Let some one place his open hand under the nail, and it will change to a circular motion. Then let a third person place his hand upon your shoulder, and the nail becomes in a moment stationary.

Mr. John T. Gray, the painter, in June 1859, subscribed for Roberts' *Constellation*, that mammoth holiday paper published in New York on the fourth of July of that year. He never received the paper until Saturday last. It showed slight discoloration from age. Pretty fast mail—only twelve years and twenty days on the way.

An U. S. prisoner at Erin, an old man, whose fears had been excited by his companions in misery, and who believed he was to suffer a twelve years' imprisonment, attempted with a razor to avoid the prison. He was almost successful. Had the razor cut a fraction deeper his attempt would have been perfect. It is thought he will recover.

Henry McCullough, an old man residing on the Butler road, a few miles from Allegheny, was attacked by three ruffians, Friday night, while on his way home from Sharpsburg, and so severely beaten that his life is almost despaired of. He is lying at the Nine Mile House, whither he was conveyed after the beating. The assailants are unknown.

Lydia Grant petitions the Court to grant her a divorce from William Grant to whom she was married, December 19, 1856, from whom she seperated in the year 1859, and by whom she alleges she has been treated in such a manner as to make life miserable—William adding adultery, she alleges, to his miserable manners. The Court has cited William to answer.

The *Leader* admits that its correspondence from abroad is made up from the columns of the Gazette, *vide* last Saturday's *Leader*. Pray, gentlemen, when your correspondents do steal from us, make them select more judiciously. Besides, the *Leader* man could not have learned from the Gazette that a Kittanning lawyer or any other person hanged himself on the Floating Palace at Parker's Landing, because no such statement ever appeared in this journal.

The first narrow gauge railway cars built in this country passed over the Pan Handle Railway *en route* for the Denver and Rio Grande Railroad. They were five in number, including a smoking and baggage car. The passenger cars were each thirty-five feet long and seven feet wide outside. They were handsomely fitted, finished and furnished and looked measurably comfortable. One row of seats was in one-half of the car, and in the other half on the other side, another row was placed. They were built at Wilmington, Delaware.

The Belfry for the new City Hall is now completed and will be put in position next week. The belfy and dome will be of wrought iron, octagonal in form, and about thirty-nine feet in height. The exterior will be handsomely ornamented, and will make a fine finish in the building. The belfry will rest on eight heavy wrought iron supports, firmly tied together with cross braces, so as to preclude the possibility of giving way. Two heavy wrought iron beams in the belgry will support the central alarm bell. In the dome surmounting the belfry, there will be eight moveable oval-shaped panels, by which light and ventilation for the belfry can be secured. At the base of the belfry, an ornamental wrought iron balustrade will be constructed, which will afford a splendid opportunity for obtaining a view of the city and vicinity. It is expected that it will take about ten days to put it on the hall.

A little very simple knowledge would go a great way in warm weather. Here are a party of amateur sportsmen coming home in disgust on account of the mosquitoes, and thousands of stay-at-homes who find life almost unendurable on any terms for flies. If either party knew it, carbolic acid is the sovereign remedy for all their troubles. A few drops evaporated in a room or poured upon the clothes will keep the winged pests at a safe distance; and if the pure crystalized acid is used no great annoyance will result to human beings. Restaurant keepers ought to know this, and keep the swarms of flies away from their windows, where they settle and buzz to the torment of passers. The musty taste of the water complained of by those who make its acquaintance newly every summer may be corrected by throwing a few scraps of sheet iron into the water-tank or cooler. This prevents water from decomposing, and keeps it pure and sweet. It will even prevent the water from growing unwholesome and offensive on long sea voyages. People are constantly rushing about in the hot sun complaining of headaches and giddiness, when all they need for safety and comfort is a wet handkerchief in the crown of the hat.

Sylvan Avenue.

Editors Gazette: Friday's *Commercial* contained in its local column an article in relation to the opening of Sylvan avenue, in the Fourteenth ward. The author of the article makes a lame attempt to impress on the minds of the people the necessity of that proposed new thoroughfare. It is true a remonstrance was presented in Common Council at their last meeting against the opening of said avenue. *It is sincerely hoped the members of the Twenty-third ward will permit their good judgment to prevail, and allow the matter to drop.* The residents of the Twenty-third ward, and the public in general would prefer to travel on a level road, such as Boundry street, in preference to going up an avenue of six feet to the hundred, one of the advantages claimed for Sylvan avenue. Besides this, the residents of the ward who own *spirited horses*, would not be in dread of being thrown over an embankment. There are only a few people in the Twenty-third ward, whose interests lay on the top of the hill, and these few are anxious to show off their *handsome new bridge, which is only* in their imagination. The intelligent residents of the Twenty-third ward would rather travel on a level road than on one with embankments, hills and bridges.

It would be a wise and judicious act, if the members from the Twenty-third ward at once open out Boundry street and never mind Sylvan avenue. If Boundry street was opened, not one in a thousand would travel up the hill. Both these roads meet at the same place. The few who manifest so much interest in the opening of Sylvan avenue, are owners of land on the top of the hill, which they are holding for speculation. If they can influence the members of the Twenty-third ward to open this new avenue, to bring their property into market, at an enormous expense to their neighbors, they will undoubtedly do so. Boundry street should be opened out by all means, and without delay, as it is by far the best road, and receives the endorsement of all owners of property in the neighborhood. It may not suit the interests of those few people on the hill, who in any event will have nothing to pay, but will certainly prove a blessing to all. Therefore we earnestly request of the members of the Twenty-third ward to not open Sylvan avenue, with its heavy cuts, deep fillings, bridges and embankments, but turn their attention to the opening of Boundry street.

AQUATIC ECCENTRICITIES.

A Race with Flat Boats—The Funniest Contest in the Annals of Boat Racing—Twenty-four Flats Enter and Twenty-four Rowists Take Involuntary Baths.

The flat boat race in the Allegheny, Saturday evening, between the members of the Columbia and Jones Boat Clubs, was the most exciting aquatic event that has taken place here for many years, and afforded more genuine amusement to the contestants and spectators than any boat race that ever came off in Pittsburgh waters. The course selected for the novel contest was from the Hand street to the Railroad bridge and return. Not less than five thousand people were collected on the wharves and bridges to witness the race, while the river was fairly alive with every species of craft, from the ordinary skiff to the larger sail boat, including the long, graceful four-oared shell, the single scull, etc., etc.

The flats that entered were constructed of pine, and their dimensions were about six feet in length by two feet in width. The length of the oars to be used was three feet. The contestants and their respective flats are named below:

R. Brown, "Oofty Gooft;" E. Powell, "Fox;" J. Jones, "M. Flinn;" W. Jones, "Johnny F. Play;" W. J. Hazlett, "Star;" F. Hazlett, "Tom the Star;" J. C. Huff "Shoo Fly;" W. Gardner, "Young Zip;" J. Christy, Old Zip." E. Meares, "Long," D. Lewis, "Red Head;" W. Smith, "Let Her Go By;" J. Gordon, "My Pigeon;" J. McGowan, "My Love Nell;" J. Irwin, "Plug Ugly;" J. Cavett, "Pat Maloy;" D. Powers, "Blood Tub;" F. Brooks, "Calamity;" E. Brooks, "The Old Man;" S. Davis, "Maggie May;" G. Marshall and unknown, "Twin Brothers;" Sam. Hazlett, "Guts;" J. Jones, "Mike;" M. Patton, "Pat Murphy;" John Douglass, "Callow;" John Shellenberger, "Ram."

Six o'clock was the hour fixed upon for the start, and shortly before that hour the flats were in line at the Hand street bridge. The discharge of a cannon was the signal for starting, and immediately following the report of the big gun there was a lively and funny scene presented. The clumsy craft started pell-mell, and ere they had accomplished three lengths one-third of the flats were seen floating bottom upwards, and their late occupants struggling in the water.

By an arrangement agreed upon previous to the start the man who first reached the Railroad bridge was priveliged to get out, shoulder his boat, and in this manner "turn the buoy," E. Brooks, who presided over the destinies of "The Old Man," was the first man to reach the bridge, and, availing himself of the advantage mentioned, he was enabled to get well out on the home stretch before any of his competitors had made the turn. Brooks it is needless to say, came in first, by a dozen lengths. He was followed next by boats in the following order: "Pat Murphy," "Guts," "Mike Flinn," "Star," "Long," "Little Nell," "Old Zip," "Oofty Gooft," "My Love Nell," "Shoo Fly," "Calamity," "Plug Ugly." The remainder were nearly all distanced.

After all the boats came in a general overturning of flats commenced, and not one out of the twenty-four contestants escaped an involuntary bath, some being favored with as many as a dozen. After amusing the spectators in this manner for nearly an hour the boatmen retired from the scene to partake of a supper at the expense of the four hindmost men in the race. It is hoped that this flat boat racing will not be discontinued, as it creates more fun than any other species of boating ever seen on our waters.

POLITICAL.

Dr. A. H. Gross.

Messrs. Editors:—If you will allow me a few lines in your good family newspaper I will say a few words in favor of our much esteemed fellow-citizen, Dr. Gross, who is a candidate for Mayor of our city. Everybody who knows him, also knows that he will make a very good officer. His character is above reproach from any one and he will deal justly with all. He is an educated gentleman, and a man of large experience in business, as well as city matters. The man does not live who would charge him either with incompetency or dishonesty. He is in favor of reducing our taxes, and opposed to spending a million of dollars or two, may be, before they are done with it—for buying up a park ground so far out in the country that a poor man will not be able ever to enjoy it with his family. He is just the man we want and we intend to nominate, and elect him—I appeal to every working-man, and every one who has taxes to pay, and wants an upright, honest man for Mayor to vote for Mr. Gross, our present worthy President of Select Council. See to it that you vote for him, and our city will honor itself by electing him. If you will give this a place in your good paper you will oblige me, for I felt like speaking out for my good old friend the Doctor.

Yours,
Twenty-Third Ward, Pittsburgh.

The Weather.

The record from June 17th to July 17th is as follows: Cloudy and variable days, eighteen; rain, eleven; sunshine, eleven; thunder storms, nine; frosts (in country), two; daily average of thermometer, 73½°; river, 2¾ feet; amount of rain that fell, 3¼ inches; month pleasant; more rain falling than was anticipated from the indications.

The amount of thunder storms, it is presumed, will restore by electricity the equilibrium of the atmosphere, paralized by a dry April and May, making August and September healthy to the physical system and recuperative to the stunted vegetation. Many favorable effects, contrary to the indications of the last month, have eventuated, as thunder storms, growth of vegetation and health of the community for the balance of the season.

The indications from July 17th to August 16th are: Twenty-two cloudy and variable days, including sixteen of rain; seven of sunshine; no continued hot weather; general aspect cool, variable and showery, with pleasant nights for sleep; not favorable for watering places or for out-door amusements.

THE GRAY CASE.

Statement by Mr. White.

Hitherto the complainants and their counsel have abstained from writing articles for the public press about Mr. Gray or the charges against him, believing that such a course was improper and not calculated to promote the cause of justice or religion, or allay the unhappy state of feelings among the members of Christ M. E. Church. Mr. Gray's counsel and friends have, however, pursued a different course. Mr. Hopkins published a statement in the *Commercial* a few days after the pretended "trial" of April 25th, and now Dr. Nesbit one in the Gazette and *Commercial*.

The four persons who signed the charges against Mr. Gray are among the most substantial, intelligent and reputable citizens of Pittsburgh. Yet they have been assailed in the most virulent manner and with the grossest abuse because they did simply what a stern sense of duty demanded. Their counsel have fared but little better.

Dr. Nesbit closes his article with this sentence: "These statements, (referring to some remarks in the Gazette of the previous day,) show a venom in their falsity that is wonderful. They convert the prosecution into a persecution."

Thus the charge is made directly that those concerned in demanding a fair investigation of the charges against Mr. Gray, are *persecuting* him, and of course influenced by improper motives. It is also insinuated in very strong language that their statements are full of venom and falsehoods. This language calls for some reply. It is due their complainants and their counsel.

The Doctor's statement is full of mis-statements and erroneous assertions. I cannot and do not believe he would knowingly state a falsehood. But he has permitted his personal feelings toward Mr. Gray and his position as his counsel to betray him into hasty and unguarded expressions. I will refer to a few of them.

1. In referring to the proceedings on the 25th of April, he says: "But the prosecution, when called upon for its testimony, broke down, *and announced its discontinuance of the case*." *The very opposite of that is the truth.* The prosecution were ready for trial and strenuously insisted upon it, on the charges they had preferred and which were sent down by the Conference to be tried. The Presiding Elder ruled out one half of those charges, refused to let the complainants amend their bill and required them to go on *with a mutilated and defective bill.* This they refused. But their counsel announced publicly in the hearing of the Elder, Mr. Gray, his counsel, the committee and all present, that the charges were *not* withdrawn, and the case was *not* discontinued, but they would demand a full and fair investigation.

2. Referring to the announcement made at that time that a new bill of charges would be presented, Dr. Nesbit, says; "*No graver or different charges have ever been presented.*" The new bill of charges, signed by all four of the complaninants, has been in the hands of Dr. Dempsey for a month or so and Dr. Nesbit has seen it. The first bill contained two charges. This one contains four. The first bill contained no *direct* charge of a crime; this contains a charge of crime of a most henious character in the plainest possible language. The first bill contained charges relating only to the "Fourth avenue affair" and Mr. Gray's connection with the man Marsh; this contains all that, and besides, several charges and specifications on matters of immorality not referred to at all.

3. He says: "Now the gathering at Christ Church, on last Tuesday, of the complainants with their counsel and witnesses, was without authority or color of law. It was not a legal meeting for the investigation of charges against Mr. Gray."

How, then, came Dr. Dempsey there? The facts are these: When Dr. Dempsey fixed that day for the trial, the complainant's counsel understood him to give the assurance that the trial should certainly proceed on that day, or at least that we should have the right of taking our testimony. In pursuance of that we had summoned our witnesses, and one of them from Philadelphia. On the week previous, when Dr. Dempsey intimated a postponement of the case, we understood that our testimony—at least of distant witnesses—should be taken. And a week before the day I wrote to Dr. Dempsey that we would insist upon taking the testimony of a part of our witnesses. Dr. Dempsey made no reply to my letter, and of course we expected to take it. Hence the "gathering at Christ Church" and the presence of Dr. Dempsey, the complainants, their counsel and witnesses. It was, therefore, strictly and literally, a gathering *with* "authority," not only under "color of law," but by direct appointment.

Among the statements in the Gazette which Dr. Nesbit pronounces "defective or utterly false," and in reference to which he says they "show a venom in their falsity that is wonderful," were the following: "Dr. Nesbit and Mr. Hopkins said they had not been retained by Mr. Gray as his counsel in the trial on the new charges," and the friends of Mr. Gray "proposed to exonerate the complainants from all blame in the matter, and to admit that Mr. Gray had been guilty of *very great imprudence*, if they (the complainants) would stop the prosecution *and consent to Mr. Gray's transfer to another Conference*."

I assert the truth of both paragraphs, *of my own personal knowledge*. In all my efforts at getting an arrangement for a hearing in the case, and down till some time after the charges were signed and placed in the hands of Dr. Dempsey (I had no conversation with him on the subject after that), Dr. Nesbit still asserted to me that he was not authorized to act as counsel for Mr. Gray, but what he did was simply as his friend. I never had an intimation to the contrary until to-day (Thursday, July 20). If I had known before the 18th inst. that Dr. Nesbit was Mr. Gray's counsel, authorized to represent him, I should certainly have recognized him as such by serving certain notices upon him.

As to the other paragraph—the proposition of Mr. Gray's friends—I assert its truth, because such a proposition was made to me in my office by two of Mr. Gray's warmest friends, and it was urged upon me strongly.

There are some other things in Dr. Nesbit's statement that I can best correct by a brief narrative.

Mr. Gray came to Christ Church from Chicago in the spring of 1869. Until some time in January 1871, there was nothing of a derogatory character in public circulation against him, although as early as May, 1870, some of the leading members of Christ Church were fully informed of certain charges then made against him in reference to his and Annie Littel's visits to the room of Marsh on Fourth avenue. This, however, was kept quiet, and very few of the congregation or of the public heard of them. In January 1871, Mr. Gray suddenly left the city with his family, and a few days thereafter the man Marsh packed up his furniture and shipped it after him. A day or so after that Marsh suddenly left. It was during this absence of Mr. Gray that the publication of the "Erie" affair took place. His friends sent for him to return and vindicate himself. It was during that investigation that the Fourth avenue rumors became public. Down till this time *not one of the four complainants had ever heard of the Fourth avenue affair.* When the Trustees took the testimony in reference to it the complainants thought the case demanded a proper investigation. They, therefore, from a sense of duty to the church, prepared and sent the charges to Conference. The charges were drawn up by themselves, without asking any Minister to put them in proper shape. They were drawn up loosely, avoiding the charge of crime in direct language. The meaning, however, could not be mistaken. Their bill contained two charges; one for "Immorality" and the other for "Impudent and un-ministerial conduct." But both referred to the same general subject, the Fourth avenue affair.

The Conference referred "the case of Rev. John A. Gray" to the Presiding Elder of the North Pittsburgh District for investigation. Dr. Dempsey, the Elder of that District, called a committee of nine to investigate the case, which met at Christ Church, April 25th. As soon as the "Court" was organized, as he called it, he directed the Secretary to read the charges—*the charges that were sent to Conference* and sent down for investigation. After they were read the counsel of complainants asked if they could be amended. Dr. Dempsey said they could not—it was too late. Dr. Nesbit then moved to strike out the charge of "imprudent and unministerial conduct." This was resisted by complainants, but finally Dr. Dempsey so ruled. That struck out one half the bill and left the remainder in a mutilated condition. The object of the motion of Dr. Nesbit was very manifest. It was to exclude a part of our testimony—to exclude, as we thought, all that in itself proved only imprudence or unministerial conduct; in other words, to limit us to direct and positive proof of *immorality*. Owing to the inartistic character of the bill as originally drawn, and especially to its defective character after being mutilated by the ruling of the elder, it was apparent to the counsel of the complainants that to proceed with the trial under such circumstances, would be little better than a farce. It is said that we still had left the grave charge of *immorality*, and hence should have gone on. But it was transparent to all present at the time that the motion to strike out first charge *was the most vital point in the defense*. They came prepared to fight it with vigor, and had their citations all ready for the occasion. Why, if it was a matter of no moment? And it was equally transparent to all present, that the defense showed signs of certain victory the moment the Elder ruled the point in their favor. Why? *Because under that ruling they would exclude a great portion of our testimony, and then owing to the imperfect character of the mutilated bill there could be no conviction.*

The complainants, under the ruling of the Elder, refused to offer any testimony at that time, but publicly announced their determination to present a new bill, so framed that there could be no mistake about it, and demand a full and fair investigation. The complainants withdrew nothing. They determined not to compromise themselves by offering any testimony at that time. They threw the responsibility of the case back upon Dr. Dempsey. The Conference had instructed *him* to investigate the case, not the complainants. It was *his duty to go and investigate the case*, whether the complainants withdrew or staid. The witnesses were there—he had their names, and could have called them. He had a committee empannelled of nine preachers called for that purpose. Why didn't he go on? If he had gone on, *the responsibility of the result would have been with him*—not with us. If he had gone on under the circumstances and failed, he would have been placed in a false position, and would have been visited with unmeasured abuse. We offered to go on, on the full bill of charges as sent down by the conference, or to present a new bill and give time to Mr. Gray to prepare to meet it. But the counsel of Mr. Gray would do nothing. *They refused to go on on the old charges and refused to let us amend the bill.* And then without a particle of testimony before the committee they demanded from them a verdict of acquittal, and, even without that verdict, triumphantly proclaimed that Mr. Gray *was purged forever*!

That we were justified in withdrawing from such a "trial" can hardly be questioned. And that we have a perfect right to prepare a new bill of charges, *embracing the same matters*, as well as others, is well settled by the highest authority in the Church. Bishop Baker in his work on the Discipline—our standard authority—expressly says that an acquittal by a committee is not a bar to a subsequent trial for the same charges, except where the acquittal was after a fair trial and a hearing on the merits.

On the 27th of April the papers published a full account of the pretended trial. It caused great excitement. Several efforts were made at some adjustment of the case. Only a day or so afterwards I suggested to Dr. Dempsey a plan by which the case might be heard and perhaps peace restored to Christ Church. It was this: Let us take the depositions of our five main witnesses in reference to the Fourth avenue affair, the defense cross-examining. The defense then take their depositions, we waiving a cross-examination and all rebutting testimony. Submit these depositions to the Committee for such action as they might think proper, and this to be the end of the matter so far as the members of Christ Church were concerned. He appeared delighted with the proposition—said it struck him as very fair and reasonable, and he would see Dr. Nesbit about it. That afternoon Dr. Nesbit and a friend of Mr. Gray came to my office to talk over the matter. I repeated the proposition to them. They appeared to be very anxious to have something done by which the case could be settled and Mr. Gray get a transfer. They said they could not think him guilty. I said I had a different opinion and I could not therefore become a party to his transfer. Dr. Nesbit objected to submitting the depositions to the same Committee. He thought they had no power in the case, and that Mr. Gray could never be legally tried again on these charges or ones embracing the Fourth avenue affair. He thought my proposi- proposition a fair one, "infinitely fair," but said he had no authority to accept it. He must see Mr. Gray and his friends. The proposition was not accepted; and when the papers noticed it, Mr. Gray's friends *perverted* it by saying there was a condition attached to it, namely, that Mr. Gray should not sue any of the complainants for slander—such a thing was never mentioned or thought of. Subsequently I submitted to Dr. Nesbit as the counsel for Mr. Gray, and through him to Mr. Gray, in writing, substantially the same proposition, but permitting Dr. Dempsey to choose a new committee, and expressly stipulating that the complainants would abide by the result—leaving Mr. Gray to free to pursue the matter fur her in either the ecclesiastical or civil courts; that proposition was also refused.

Finding there could be no amicable arrangement for getting the testimony, I prepared the new bill, and on the 3d day of May, only a week after the "break down," sent it to Dr. Dempsey, before it would be signed, *for his examination and correction if not in proper form.* He wrote me a letter on the next day requesting me not to have the charges signed until he could see me. I saw him a few days afterwards, when he requested me still to hold off; that he hoped to make some arrangement with the friends of Mr. Gray. Thus from time, to time for some three weeks, he requested me to wait, until I finally wrote him to return the bill that I might have it signed. He returned it, but even then requested me to wait a few days until he could see Mr. Hopkins, who was out of the city. I waited a few days and got the bill signed. I then notified him I had the bill signed, and referring to his last request, said I would send it whenever he was ready to receive it. He did not reply to that letter, but shortly after that the bill signed by the four complainants was sent to him, after making a few modifications and leaving out some charges that involved the names of other persons.

Dr. Nesbit says, "weeks and weeks passed and brought nothing but an unsigned paper." The above statement shows the true cause of the delay. The "unsigned paper" referred to was the copy of the bill I had sent to Dr. Dempsey for his examination and revision, and which he showed to Dr. Nesbit.

Dr. Nesbit says, "Mr. Gray is entitled to a fair trial." Certainly. And these complaints are entitled to a fair treatment. "He asks nothing but justice." There is some justice due also to these complaints. Dr. Nesbit says Mr. Gray "will put in an appearance at the proper time and place, and answer all charges against him." I earnestly hope so. For nearly three months I have been laboring to accomplish that.

I should be very sorry to do any injustice to Mr. Gray. His character is at stake, and he has rights and feelings which ought to be respected. But the character of the church is also at stake, and others besides Mr. Gray have rights and feelings. If he is guilty he should be expelled from the church and banished from decent society. If he is innocent he should be vindicated, and those who have wilfully injured him should be severely punished. All the complainants or their counsel have ever desired is to get the testimony in the case fairly before the church authorities. If they are engaged in a "prosecution" it is not a "persecution." They entertain no "venom" in their bosoms. They do not hate Mr. Gray, but they love the M. E. Church. If Mr. Gray can clear his character and free the church from this terrible scandle, none will more heartily rejoice than they. But we feel that can never be done except by a fair and full trial.

As I do not intend to discuss this case any further in the newspapers, I will add a word more by way of explanation.

I do not charge Dr. Dempsey with a wilful disregard of duty, nor do I charge Dr. Nesbit with being a knowing and wilful party to any scheme to defeat a fair investigation of this case. But I do charge that Mr. Gray himself and some of his friends have evaded and sought to evade a fair and full investigation. And they have tried to evade the issue by making the most unjust, ungenerous and scandalous insinuations against the complainants and those connected with them. They base their opinion of Mr. Gray's innocence upon the fact that he is a Minister of the Gospel, and that no minister who could preach as they have heard him preach could be guilty of such crimes as are charged against him. And their feelings have become so enlisted in the case that they will not—as one of his leading friends said to me—believe him guilty *no matter what the testimony is.* Under these feelings they struggle hard for his acquittal.

ST. LOUIS.

The Commercial Agency Case.

St. Louis, July 22.—The case of Mellier vs. Bradstreet's Commercial Agency continues. Mellier has introduced further evidence as to his solvency and prosperous business, and testified himself as to the condition of his affairs, and also stated that the report published in the July number of the Agency's Reports had injured his standing and damaged his credit. J. H. Eams testified that he had been sent for by Mr. Shepard, the Superintendent of the Agency, and was told by him that he (Eams) could have a good rating if he would pay for hunting up the evidence of his credit. This would cost from twenty five dollars to five hundred dollars, and Mr. Eams refused the offer. Chas. Shepard, manager, was then placed on the stand, and flatly contradicted the statement of Eams, and said that Eams offered him money for favorable rating; that he (the witness) told him he ought to be kicked out of the office for making such an offer; that he never received presents or money, and considerations had no influence with him. King, whose testimony was reported yesterday, had been discharged for making incorrect reports, falsifying the index and for general disobedience of orders. King threatened to injure him all he could, and had assaulted the witness with brass knuckles. The rating of Mellier was based upon information received from men regarded as well versed in trade and business, and who stated that Mellier's assets and liabilities are so nearly equal as to justify the witness in rating him to be trusted with caution. The case excites a good deal of interest here, involving, as it does, the system upon which the business of commercial agencies is conducted. Much information upon this point has been given, which is interesting to all merchants.

A large number of witnesses were examined to-day in the Mellier vs. Bradstreet's Commercial Agency case, and a great deal of conflicting testimony given. Mr. Larned, chief clerk of the agency, testified that the agency was controlled in its ratings of merchants alone by a sense of duty to its patrons. F. O. Day, of the firm of Derby & Day, testified to the general accuracy of Bradstreet's agency He did not know of any one connected with the agency influenced by presents or pecuniary considerations. Mr. Stewart, a partner of Mr. Day, corroborated this statement. James Richardson and George Bain gave similar testimony. It is proper to state that the testimony given by Wm. King, on the first day of the trial, that he had heard gold-headed canes and other presents would procure satisfactory rulings, was ruled out by the court. It also appears that the testimony of Mr. Eames was mainly based on hearsay. The case was cloaed to-night, and the motion to dissolve the injunction under advisement.

A FATAL FEUD.

A man named Coram rode up to the house of James Coombs, in Jackson county, this State, on Thursday last, with the avowed purpose, it is said, of killing him. Coombs, suspecting his intention, seized a musket, fired at and wounded him in the abdomen, and afterwards fired a pistol at him. Coram fled, but after riding about a hundred yards fell from his horse and died. Coombs has been several times attacked by Coram. He surrendered to the authorities and was released on bail.

STEAMER SUNK.

The steamer Olive Branch hence to New Orleans, sank at five o'clock this morning ten miles below Grand Tower, between here and Cairo. She lies straight but in deep water, and it is feared she cannot be raised. The insurance valuation is $37,500 and is insured for $25,000 in Cincinnati, Wheeling and Pittsburgh offices.

LETTER FROM ERIE.

[Correspondence of the Pittsburgh Gazette.]

Erie, July 22, 1871.

The District and Circuit Courts of the United States have been in session here since Monday, the 17th inst., Hons. Wilson McCandless and William McKennan on the bench. There is a goodly number of Pittsburghers in attendance on the courts as attorneys, jurors and witnesses, most of whom are largely combining business and pleasure, some of them given more to the latter than the former, and thereby adding greatly to the inconvenience of those who feel that the former has priority of claim.

Judge McCandless presides with all the dignity and more than the grace and ease of an English Lord. Here, as at home, he seems to be a universal favorite. The members of the bar, even the octogenarians, do not seem to sit comfortably on their seats until they receive recognition from him, and the tipstaves feel that their official life is secure for another term when he makes one of his stately bows. Judge McKennan is somewhat more rustic in his bearing and movements than Judge McCandless, but he sustains admirably the dignity of Uncle Sam, and is, we believe, a sound and able jurist. These gentlemen conduct the business of their respective departments with dispatch, although sadly impeded sometimes through dilatoriness of the attorneys, who seem in many instances to have to prepare cases after the trial has commenced. In this category we do not include the prompt and able District Attorney, Hon. H. B. Swoope, whose motto, whether at the bar or on the platform, is *semper paratus*. When he conducts a case he has all the documents in order, and the testimony so arranged that there is no confusion produced in the minds of the jury; all under his conduct goes on with the regularity of perfect clockwork.

So far there haae been no cases requiring elaborate argument, although there have been some tried that will prove rather serious to the defendants. There was one case tried during the week which, notwithstanding the clear charge of the Judge, puzzled the jury no little. It was an "acknowledgment" of an indebtedness to the amount of twelve thousand five hundred dollars "with interest from —— 1865." The Judge charged that as the blank was not filled the interest commenced on the 1st of January, 1866. After remaining out all night the jury returned a verdict in accordance with the charge.

The various indictments against Joseph K. Turner, of Titusville, were tried yesterday, on all of which he was found guilty. The charges, which were published in the Gazette recently, were that he forged an oath of allegience, and a pension voucher, and obtained letters out of the Titusville post office by fraud and deception, and a number of others. This wholesale forger, who claims to be an attorney at law, finding that he must make an involuntary visit to Warden Wright, of Allegheny, made some inquiries yesterday as to the accommodations afforded in the Western Penitentiary! It is said he was engaged to be married to a young lady of high respectability in Meadville. The ceremony will not be likely to be performed for some time.

The Grand Jury having concluded its inquest, adjourned yesterday. In its presentment to Judge McCandless, it recommends the Government to erect public buildings to be used as a Custom House and Court Rooms for the District and Circuit Courts of the United States. It appears that buildings for these purposes are greatly needed. The Government has no buildings in which to hold its courts and has to rent the County Court House. The business of the port has increased four-fold since Judge McCandless took his seat on the bench of the District Court, and the present Custom House does not afford sufficient accommodations.

R. H. King Esq., President of the Cash Insurance Company of Pittsburgh, and Captain Boyd, of Allegheny, having finished their labors on the grand jury, left for Chataqua Lake this morning. We advised them to the Lake House, where the ever hospitable Horace Fox, and the most genial of gentlemen, Levi Mason, so cleverly preside as hosts. A number of traverse jurors also took their departure, some for Niagara Falls, and some for Cleveland and other places. They will return on Monday.

An old gentleman, who has been confined in the County Jail here, charged with a violation of the revenue laws for illicit distillation, having been informed by a policeman from Corry that he would be sent for three years to the Penitentiary, attempted suicide the night before last, and inflicted some frightful gashes on his throat with a pocket-knife. He was discharged yesterday on his own recognizance. When the discharge was read to him it seemed to have a soothing and healing influence on his wounds. His name is Otto Steinberg.

Colonel Russell Errett, Chairman of the State Republican Committee, is here, and is receiving gratifying intelligence of the prospects of Republicanism in Erie county.

Hon. C. T. Sherman, Judge of the District Court of the United States for the Northern District of Ohio, and brother of General W. T. Sherman, visited the city yesterday in company with the Hon. Geo. Willey, United States Attorney for the same District. Judge Sherman was honored with a seat on the Bench with Judge McCandless. The Judges, a number of jurors and others made an excursion on the lake in the afternoon.

On Thursday afternoon the City Councils of Erie extended an invitation to the grand and traverse jurors to make an excursion on the Land-locked bay. About one hundred accepted the invitation. As there was no champagne imbibed, it cannot be said that any undue influence was brought to bear upon the grand jury to induce the members to recommend the erection of the public buildings referred to above.

Marshal Murdock, and his Deputy, Mr. John Hall, are very popular with the court and juries. Both are worthy gentlemen and well fitted for their respective positions.

The District Court will adjourn about the middle of next week. The Circuit Court adjourned on Thursday, and Judge McKennan left for home yesterday. X.

LEGAL.

IN THE COURT OF COMMON PLEAS OF ALLEGHENY COUNTY.

William Stevenson and Mary Ann Stevenson, his wife, vs. Maria Eve Hoffman, executrix and devisee of JOHN M. HOFFMAN, deceased, and the German Evangelical St. Paul's Congregation of Allegheny City, Pa. Augustus Hoffman, John M. Hoffman, Maria Eve Schartzman, Lena Fuchs and Maria Hermer, devisees of John M. Hoffman, deceased.

No. 235, June Term, 1871. In Equity.

And now, May 20, 1871, this cause came on to be heard, and it appearing to the Court on the affidavit of Mary Ann Stevenson, that two of the defendants, viz: John M. Hoffman and Lena Fuchs, are not within the jurisdiction of the Court and cannot upon diligent inquiry be found so as to be personally served with a copy of the bill filed in this case, on motion of Dun & Leggat, attorneys for plaintiffs, it is ordered, adjudged and decreed that the said John M Hoffman and the said Lena Fuchs be required to cause an appearance to be entered for them to the bill of complaint filed in this case on or before the first Monday (4th day) of September, 1871; and it is further ordered that a statement of the substance and object of said bill of complaint, together with a copy of this order, be published in the Pittsburgh Daily Gazette.

BY THE COURT.

Substance of the Bill of Complaint filed in the above case:

1. That John M. Hoffman died November 20, 1868, having before his death made his last will and testament, in which defendants are devisees.

2. That Mary Ann Stevenson, on November 25, 1867, purchased from said John M. Hoffman a lot of ground situate on the corner of Grant avenue and Park street, Allegheny City, and received a deed for the same, which does not describe the lot purchased.

3. The object of the bill of complaint is to require defendants to deliver to Mary Ann Stevenson a deed properly describing the lot purchased by her.
